## SPACE SAVER IN-PLANT OFFICES

### Space and Storage Saver

Get the most from your floor space without sacrificing storage space. Our storage roof option gives you up to 50 lbs. per sq. ft. capacity.

Interiors of offices are designed for both beauty and practicality. Full 3" thick walls allow for noise-free atmosphere.

## CONVERT UNUSED FLOOR AND AIR SPACE INTO DOLLARS

### Full 3" thick walls

A completely modular building system. Answers the most urgent office space needs; can be erected, ready for occupancy in a single day. Completely relocatable and expandable, these offices replace permanent construction for as little as \$6 per square foot.

**FLEXIBLE**—No need to compromise with costly permanent structures. Put the office where you need it today and quickly relocate it tomorrow. No additional material cost—all parts are fully reusable.

**PRE-ENGINEERED**—Permits you to simply select the size and shape you need from standard models.

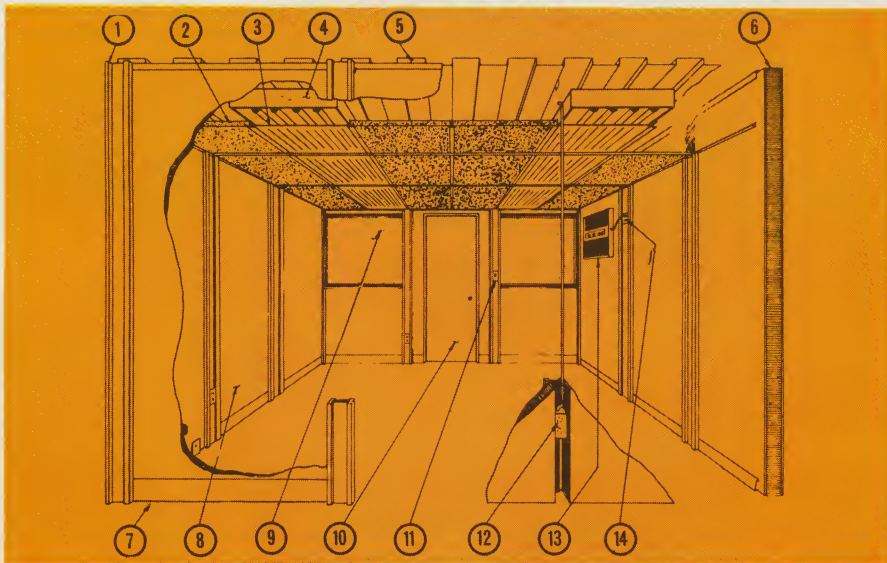

**MAINTENANCE-FREE**—Every exposed surface is either tough vinyl faced, anodized aluminum or painted steel for years of carefree use.

All units are specifically designed for fast erection by your factory personnel. Complete, simple to read instructions included.

Just pick out the office which fits your needs. The money saved by increased efficiency will pay for these offices in no time. Order now!!

Partitions made up of 4' and 2' panels. For either panel or door where glass is desired add \$40.00 for 1/8" tempered clear glass.

Please send sketch indicating location of glass panels and swing of door.

1. Extruded aluminum posts, anodized, with vinyl-clad feature strip.
2. Suspended, acoustical, vinyl-faced fiberglass ceiling tile.
3. Luminous panels, provide efficient indirect lighting.
4. Fluorescent fixture provides an average of 100 foot-candles of illumination.
5. Steel roof deck is designed to provide clear spans of up to 20 feet.
6. Walls a full 3" thick with honeycomb core afford structural rigidity and effective "sound-conditioning." 1/4" hardboard facings, vinyl-clad, retain beauty with minimum maintenance.
7. Continuous base channel.

8. Design permits removal of a single panel.
9. Window option: 1/8" tempered glass
10. Door faced with attractive walnut vinyl, prehung in aluminum jamb, complete with hardware.
11. Wall switch for lights. Conforms to National Code.
12. Conduit run with junction box, reaches ceiling plenum; pre-assembled in interior post.
13. Comfort control options include: exhaust fan, heater (heat, off or fan), and anodized aluminum louver.
14. Outlet for air conditioner, 110 or 220 volt (Breaker panel provided).

If you have any questions regarding your office set-up please call 800/645-1232

ECONOMICAL CLASS 70 FREIGHT

**TWO STORY OFFICES AVAILABLE  
(Picture Shown on Cover) CALL FOR QUOTE**

**Price Includes:** solid panels ( 4 walls) to construct office size shown, pre-hung vinyl faced door and hardware, all connecting hardware, complete lay in ceiling system, steel ribbed roof deck, electric kit, complete erection information. Floors are not provided.

**Electric Kit** includes conduit run consisting of junction box with supports, outlet, switch, conduit of appropriate length to reach ceiling plenum, connectors and pulling elbow. Preassembled in the interior post side to create a vertical electrical raceway. Fixture is a troffer type 2' x 4', 4 tube lay in (without bulbs). Breaker panel sized to the office, includes single pole breakers, outlets, air conditioning outlet included. Kit does not include wire, lamps, or ceiling conduit which are left to the discretion of the electrician.

\*\* **Storage Roof** option includes steel structural beams 6" or 8" of appropriate lengths, notched for ceiling channel bi-pass and drilled to receive angle bolts, post angles drilled, connecting bolts and fasteners for connecting roof deck.

\*\*\* **Vision Tower** option includes stairs with landing and railing, 3/4" underlayment. Units are 8' high to top of mezzanine with 7'2" underclearance (order office separately)

**OPTIONAL ACCESSORIES**

- Model No. 352548 Baseboard heater, 4' long with thermostat-110V (for areas up to 100 sq. ft.) **\$55.50**
- Model No. 352550 Baseboard heater, 8' long with thermostat-110V for areas up to 200 sq. ft.) **\$94.50**
- Model No. 352552 wall mounted heater, 3200-5600 watt variable, 220V (for areas up to 800 sq. ft.) **\$129.00**
- Model No. 352554 Louver, 18" x 12", specify door or panel **\$30.00 installed**
- Model No. 352556 Fan, ceiling mtd., 8" dia, 200 C.F.M. **\$45.00**
- Model No. 352558 Fan, ceiling mtd., 10" dia. 470 C.F.M. **\$59.00**

<sup>†</sup> Based on new building cost of \$20 per sq. ft.

## PORTABLE PRE-FAB

# ALUMINUM BUILDINGS

*Ideal for inplant office, guard house, lunch rooms, toll booth, parking lot. Our Pre-Fab building systems are designed to solve virtually every indoor or outdoor need. All buildings are shipped fully assembled\* with floors, tempered safety-glass windows, doors with locks, pre-wired lighting, circuit breaker box, 110V and 220V outlets conforming to Nat. Elec. Code and carrying IBEW label.*

**Economical—fully equipped. Ready for instant use.**

### CONSTRUCTION:

**FRAME**—Extruded aluminum welded together to form a rigid unitized frame work.

**WALL PANELS**—Textured aluminum exterior with prefinished hardboard interior, high density insulating core, fully laminated.

**FLOOR**—Aluminum tread plate on buildings up to 4' x 6', vinyl asbestos tile on all others. Insulating board, plywood underlayment and aluminum vapor barrier included.

**CEILING**—Insulating board core with aluminum on two sides.

\***ROOF**—"V" Grooved white aluminum with aluminum fascia and gutter trim. Water-tight construction. Roof shipped separately, attaches easily.

**WINDOWS**—Sliding safety, tempered glass, lockable and pile weather-stripped.

**DOORS**—Glazed hinged doors of hollow steel with lockset and spring-type closure. Glazed aluminum sliding doors with lockset and fully weather-stripped. Sizes 77" x 63" and smaller have counter shelf.

# WIRE MESH PARTITIONS

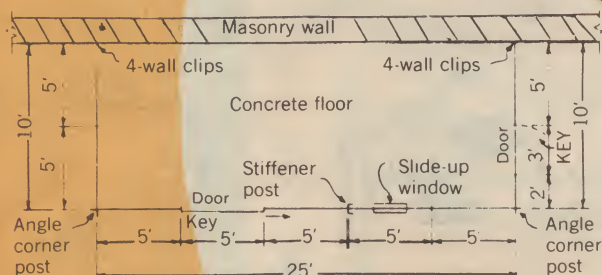

panel basic 5" width    single sliding door    Service window in panel    single panel hinged door

Two-wheel ball bearing hangers roll in enclosed track on Sliding Doors.

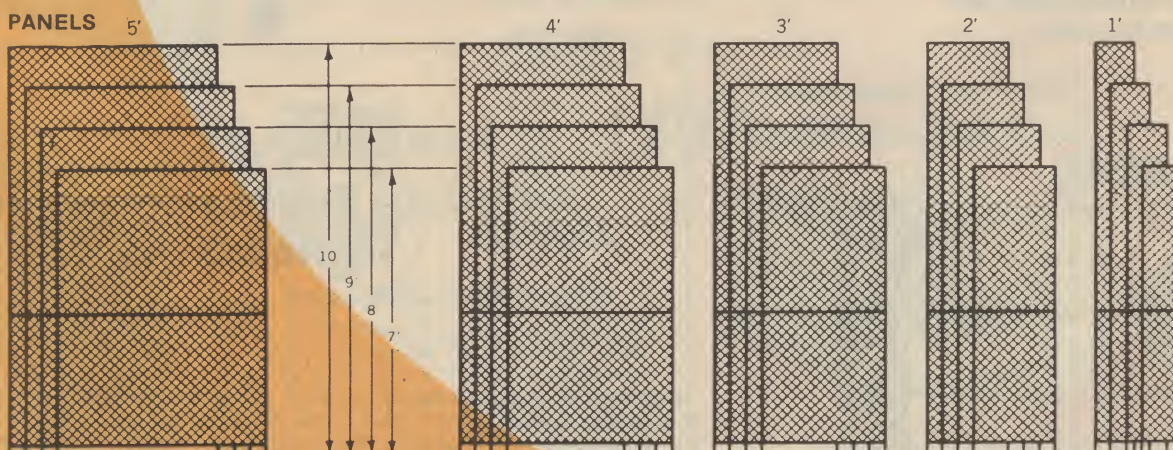

Heavy cast floor socket

## HOW TO PLAN AND ORDER

1. Make a rough floor plan of the area to be enclosed and take measurements showing them on the drawing.
2. Select the height of the partition desired. Indicate doors, service windows, etc. and size of doors on the drawing; also location of same. Show the direction the doors, slide or hinge, and the key side of same.
3. In making your takeoff be sure to utilize stock size panels for maximum savings. Install vertical channel stiffener posts every 15 to 20 ft. on straight runs of 30 ft. or more.

Note: Hardware such as top capping bar, floor sockets and assembly bolts included at no extra cost.

## SERVICE WINDOW

The bottom-hinged sheet metal closure opens inward to form a shelf equipped with snap catch and padlock lugs. Service opening is 24"W x 15"H.

Panel No.	Panel Width	Panel ht.	Price
180140	5'0"	7'0"	\$113.08
180142	5'0"	8'0"	116.22
180144	5'0"	9'0"	127.46
180146	5'0"	10'0"	132.80

## ANGLE CORNER POST

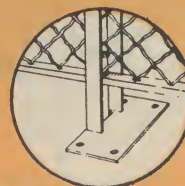

REQUIRED FOR EACH  
CORNER OF PARTITION:

180166	7 ft. high	\$10.68
180168	8 ft. high	11.41
180170	9 ft. high	12.44
180172	10 ft. high	12.97

## CHANNEL POST

Serves many uses; as intermediate channel stiffener in straight runs of 30-ft. or more on about 15-ft. centers; or as channel end post where panel connection to wall is not desired.

180174	6'11½" high	\$19.76
180176	7'11½" high	21.99
180178	8'11½" high	24.93
180180	9'11½" high	27.64

## WALL CLIPS

One set required for each wall connection

No. 180182 \$ 2.53 set

PRICE INCLUDES PANEL AND SERVICE WINDOW

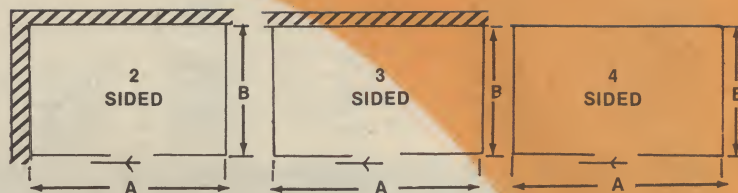

## LOW COST SECURITY ROOMS

*For stock rooms, tool cribs, security areas*

Now you can purchase a complete wire mesh partition security room. The low cost way to protect your merchandise and valuables. Same construction as our wire mesh partitions as shown on page 6. Easy to install, move or relocate. Sliding door is 5' W x 7' H with built in lock and transom. Doors can be located on any side.

Optional Service Window/Shelf - 24"W. x 15" H.  
Mounted in Panel Model No. **180510** \$ 70.24

## STEEL FOLDING GATES

*easy to install*

### The low cost way to protect against pilferage and unauthorized entry

Stock sizes for openings from 2'6" to 13'0" wide. All gates 6'6" high when folded to the side. Constructed of strong 3/4" mill channel. For added strength, hinge and end bars are reinforced with 1" channel. End bars have a smooth rolling, ball-bearing caster and are equipped with handle. On double gates a steel rod, self-locking, cane bolt holds left half in position or both

halves may be opened for full access. All steel folding gates equipped with two padlock lugs. Finished in rust resistant black. Easy to install. Mounting brackets and hardware furnished for masonry mounting. Surface mounted—install on wall surface or outside door frame. Recess mounted—install within door frame or between two walls.

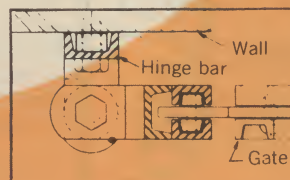

Type gate and mounting	Gate number	Norm. extension	Min. extension	Max. extension	Width	Price

The same double folding gate may be used for either RECESS or SURFACE

MOUNTING.

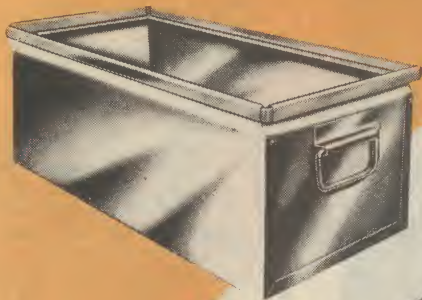

**RECESS MOUNTED**  
Shows hinge bar when installed between walls or within door frame.

**SURFACE MOUNTED**  
Shows hinge bar when installed on wall surface or outside door frame.

## STEEL SHOP BOXES

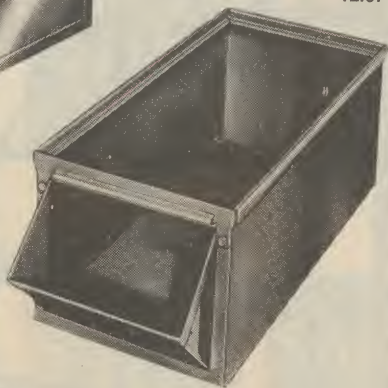

Ample strong for handling and storing light to heavy loads. Inside supporting rail of this shop box reinforces all four corners, insuring greater rigidity when boxes are stacked and loaded.

Model No.	W x D x H	Price Each
183002	10x20x8"	\$12.05
112040	10x16x6	9.55
112042	12x18x8	12.67

Stack these boxes on the floor, or use for regular bin type storage. When stacked, contents are easily removed through hopper ends. Front top rail serves as handle; opposite end has handle.

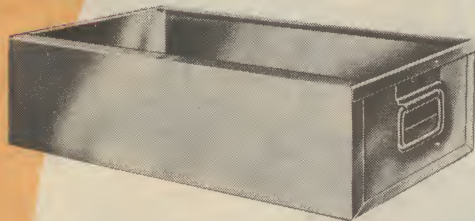

Model No.	W x D x H	Price Each
183004	10x20x8"	\$12.90
112046	10x16x6	9.55
112048	12x18x8	13.79

A lighter weight box, ideal for small parts. Drop handles at both ends. Sturdy runners protect bottom and lock boxes when stacked.

Finish is gray enamel.

Model No.	W x D x H	Price Each
112050	6x9x3"	\$5.30
112052	8x12x4	6.65
112054	9x13 1/2 x 4 1/2	7.43

## STURDY PARTS CABINETS

252002

All storage cabinets feature balanced, "no-drag" drawers with newly designed pulls and extra heavy construction. Drawers have 2 dividers which may be adjusted to provide any desired size compartmentation. Each drawer incorporates a special cardholder for easy contents identification. Finish—Green baked enamel.

252004

Cabinet Size: 36" W x 12" D x 75" H

36 Drawers: 11" W x 11¾" D x 4⅝" H

**\$509.33**

No. 112066

Same dimensions as No. 112064 except that the cabinet is 18" deep.

**\$607.38**

## 36 DRAWER UNIT

No. 112060

Cabinet Size: 36" W x 12" D x 39" H

36 Drawers: 5½" W x 11¾" D x 4⅝" H

**\$298.73**

No. 112062

Same dimensions as No. 112060 except that the drawers are 17¾" deep.

**\$375.28**

**FOR FASTER SERVICE, CALL TOLL FREE 800-645-1232**

Used by leading concerns  
the world over

- Almost assembles itself, no bolts — no nuts — no tools
- Quick adjustability — shelves move up and down in seconds
- 25% stronger than ordinary shelving
- "Clip" assembly for vise-tight rigidity
- Durable baked-on gray enamel finish

## Note

Erection and adjustment are simple to handle. Heavy duty steel clips slip quickly into place in the upright. When shelf edge is pressed firmly between clip and upright member, it forms a solid vise-tight connection.

## A MUST FOR EFFICIENCY

### HEAVY-DUTY WELDED STEEL FRAMES

- Chip-proof, scratch resistant gray baked enamel finish
- Nesting "feet" for stability in stacking

### TWO TYPES OF STYRENE DRAWERS

**GRAY HEAVY-DUTY**—Virtually unbreakable hi-impact styrene—ideal for most requirements. Guaranteed for life, won't crack, dent or break.

**TRANSPARENT**—where frequent visual inventories are required transparent drawers permit a quick check.

**DIVIDABLE**—All drawers can be partitioned into several sub-compartments. Patented dovetail dividers lock in place—won't creep or slip.

Patented device for quick, easy assembly. Snap split-sleeves to post . . . slide shelf over sleeve . . . provides positive lock for absolute rigidity.

## The shelf with 1000 uses

- *Free air circulation*
- *Ends dust problems*
- *Heavy plated finish*

Erecta-Shelf's open, steel rod construction permits free air circulation. Reduces spontaneous combustion hazards, improves sprinkler effectiveness. Erecta-Shelf does not collect dust as flat shelves do. It's heavy plated finish is impervious to heat or cold. Erecta-Shelf fits any floor plan—meets any storage need. It's truly the shelving of a thousand uses!

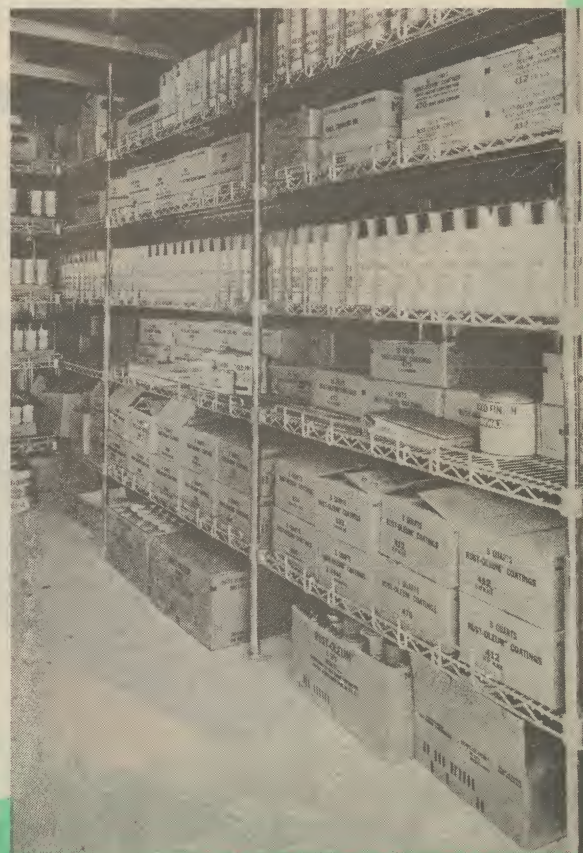

FULLY FLEXIBLE . . . assembles in minutes without nuts, bolts, or special tools. Provides substantial savings in assembly costs.

Approved by National Sanitation Foundation for use in food and drug industries. Contact us for quotation on stainless steel Erecta Wire Shelving.

## FRAME GUARD

Protect your pallet rack from forklift truck damage with Frame Guard.

\* Because of narrow aisles, forklift trucks frequently collide with posts at aisle junctions causing serious and costly damage to merchandise.

\* Frame Guard protects columns from abuse.

10% discount on 24 or more

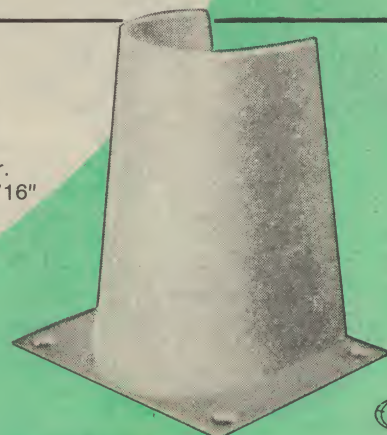

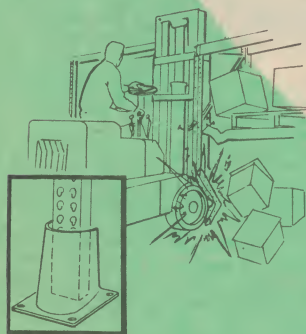

### FRAME GUARD FEATURES:

- \* Fits all columns up to 3" wide
- \* Tapered design for maximum space usage.
- \* Four holes for lagging to floor.
- \* Heavy duty construction of 3/16" steel
- \* Easy installation
- \* Color—safety orange

Model No. 501102  
Height—8 3/4" \*Base 7" x 6"

**\$10.62 each.**

Sold in carton quantities of six frame guards only.

# DO IT YOURSELF SLOTTED ANGLE FRAMING MATERIAL

Cut it! Bolt! Assemble it! No drilling...no welding...no painting!

100% reusable.

THREE SIZES MEET EVERY FRAMING REQUIREMENT

## TYPE 150

Light Duty Use  
1½" x 1½" - .074"

Length	Model No.	Quantity per pkg.	Price
10'	161102	10	\$50.85
12'	161104	10	58.92
15'	161106	8	59.18

- Amazing Strength at Connections
- Maximum rigidity
- Design and fastening simplicity
- Instant adjustability

- Complete reusability
- Replaces many sizes of angle iron
- Lowest time and labor cost

## TYPE 225

Meets Most Requirements  
2¼" x 1½" - .080"

## INDUSTRIAL SPIRAL STAIRS *Prepackaged complete — easy to install*

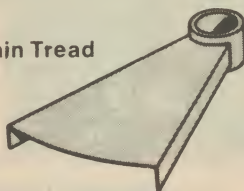

Provides heavy duty service in commercial buildings and industrial plants. Engineered for strength with a  $\frac{3}{4}$ " steel baluster on every tread and a heavy  $3\frac{1}{2}$ " core post. Available in 4'0", 5'0", and 6'0" diameters with adjustable treads for perfect fit in your plant.

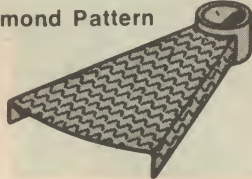

Make out-of-way corners and cramped passageways useful. Install a compact industrial stair and gain convenient access for service traffic between floors.

- engineered for fast, easy installation—no special fabrication needed
- raised diamond non-slip pattern or plain reversible treads—use for left hand or right hand conditions
- rise adjustable from 8 $\frac{5}{8}$ " to 10"—fits ceiling heights up to 10 ft. floor-to-floor
- plain treads are adaptable to rubber, carpeting, wood, or other coverings.
- platform includes strong iron railing as a safety feature, to enclose stair opening.
- tough, heavy duty, reinforced polyethylene step railing—flexible for easy installation—rigid strength provided when installed.

Plain Tread

Diamond Pattern

Model No.	Diameter	Tread	Price
180430	4'0"	Plain	\$572.03
180432	5'0"	Plain	742.11
180434	6'0"	Plain	913.03

*Rugged quality construction*

Landing Anchor

Tubular hand rails are 1 $\frac{1}{8}$ " O.D. Top and bottom formed pieces bolt onto stringer panel. Straight center section of rail telescopes for close butt fit.

Stair treads have deep drawn oval hole open design, perforated traction nubs for non-skid surface and are self cleaning. Stair treads are adjustable to be leveled and have a 7" to 8" rise.

**SAFETY TESTED, FAST, EASY ASSEMBLY:** Preengineered steel stairways are designed for flexibility in assembly, high structural strength, all units have safety open grate stair treads and tubular hand rails.

**LOW COST ERECTION OF UNITS:** All parts are pre-cut, all holes are pre-drilled and can be easily assembled in about one hour

**INTERIOR AND EXTERIOR APPLICATIONS:** Use these stairways to reach second level decks or mezzanines, multi-floor landings, machine platforms and scaffolding. Also to reach stages, stands, roofs, skylights, windows, towers; and to go down into pits, traps, wells, shafts, etc.

These expandable Mezzanine Storage Units have a basic starting section of open grate flooring at the 8' level ready to use. Heavy-duty welded upright frames and floor support beams, finished in gray, can be quickly assembled without special tools. When needed, the mezzanine can be disassembled and moved to another location. Assembly time for one mezzanine is about 4 hours with 2 men.

### LOW COST

Using modular steel parts, these mezzanines are pre-engineered, pre-cut, drilled and ready to be quickly assembled by regular workmen.

**ALL MEZZANINES HAVE 7'5" UNDER CLEARANCE WITH 12' TO TOP OF RAILING.**

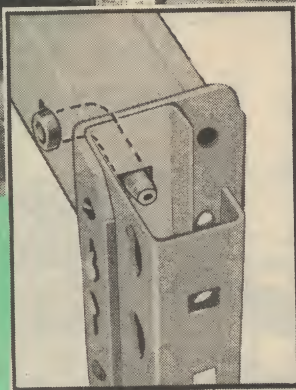

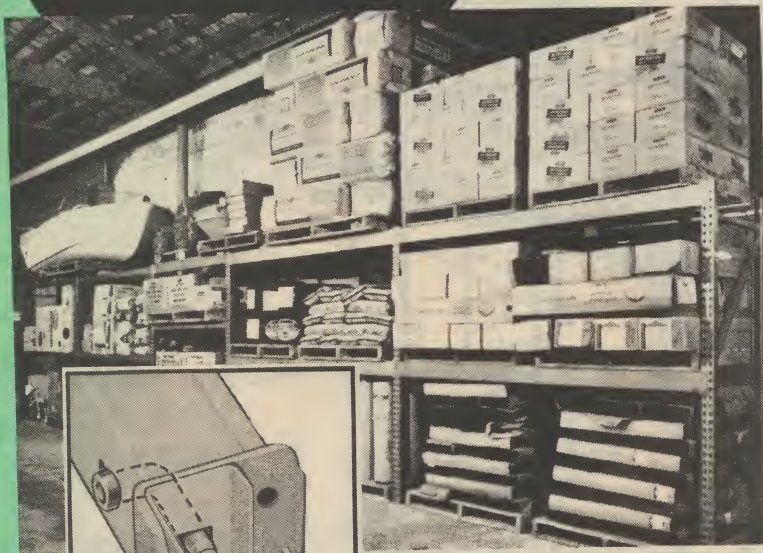

All railings, kick plates and necessary accessories included

If you have any questions regarding these mezzanines or special sizes, call toll-free 800-645-1232

# PALLET RACK

## QUICK EFFICIENT STORAGE OF PALLETIZED AND HAND-STACKED MATERIAL

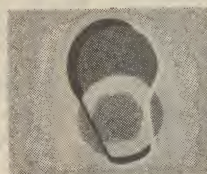

**EXCLUSIVE SAFETY LOAD LOCK...** Accepted as the finest of all rack locking devices. Lock is an integral part of the beam, not a loose part. No tools are needed.

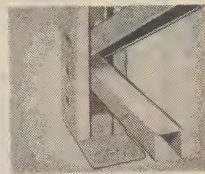

**ECONOMY**—Tailored to your individual needs to give you maximum efficiency from every cubic foot of space. Heavy-duty construction and long-lasting finish provide years of dependable service.

**SAFETY**—The finest safety locking device holds racks secure from accidental loosening. Tapered keyhole slots hold beams securely, keep columns rigid. Meets or exceeds all specifications set forth by R.M.I. and A.I.S.I. Standards.

**EASE AND SIMPLICITY**—Can be erected with unskilled labor. Hexagon button head studs on beams engage and disengage quickly and easily. No bolting or fastening.

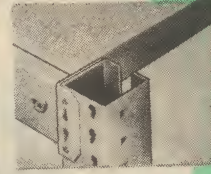

**TAPERED KEYHOLE SLOT AND HEX STUD**

**RIGIDITY AND STRENGTH**

—Placement of reinforcing struts is computer calculated to meet individual upright section requirements.

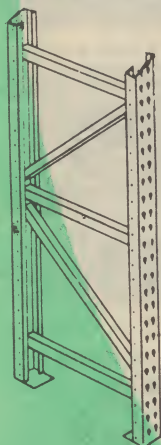

**STEP-DOWN LEDGE DESIGN**

On beams are recessed to allow for shelf.

## UPRIGHT FRAMES 19,000 LB. CAPACITY EACH

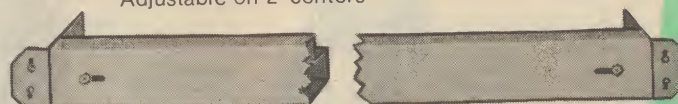

Roll formed, high strength steel box channel to help resist shock loads. This pre-assembled frame can be used as a common frame or individually.

# SYSTEMS II HEAVY DUTY BULK STORAGE RACK

- Up to 2600 lbs. capacity
- With or without ribbed steel decking
- Quick, easy and rigid assembly

## Plywood Deck Supports \*

Model No.	Depth	Price
254702	36"	\$1.70
254704	48"	2.25

SOLD IN PKGS. OF 6 ONLY

Solve the problem of storing bulky products with our Systems II Rack. Basic units can be stacked, expanded, or modified, with add-on units as your needs grow...

UPRIGHTS are precision roll-formed to allow for 1½" adjustment of shelves.

BEAMS are designed for extra strength, will support 1700-2600 lbs. per pair. Every pair of beams furnished with two tie bars to prevent beam rotation under maximum load.

DECKS are ⅝" deep steel rib-formed for extra strength fits into recess of beam.

FINISH—long lasting gray baked-on enamel.

## SINGLE SIDED UNIT

# HEAVY DUTY ADJUSTABLE CANTILEVER RACK

*For storage of bulky, long or odd shaped items.*

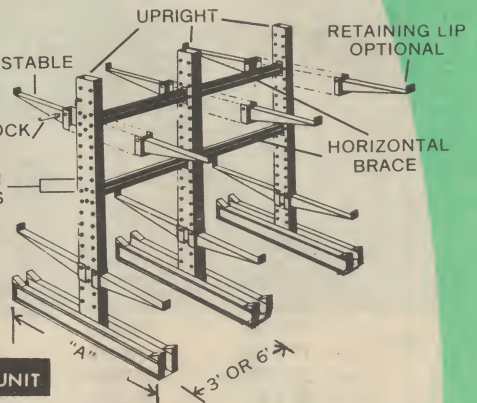

Unobstructed long spans make this rack ideal for storing bar stock, lumber, pipe, furniture, etc. Available in three heights with capacities up to 36,000 lbs per column and seven arm lengths with capacities up to 3000 lbs per arm. These single or double sided racks can be used in pairs or continuously, making a run as long as you wish. Uprights can be set on either 3' or 6' centers depending on capacity and or length of item stored.

HEAVY DUTY, ADJUSTABLE CANTILEVER ARM

SECURE PIN LOCK

ADJUSTABLE ON 3-INCH CENTERS

DOUBLE SIDED UNIT

U.S. Patent No. 3,512,654

### How to order:

1. Choose type and arm length desired
2. Determine upright type, height, and base  
Order two uprights per starter unit.  
One per add-on unit.
3. Order one brace set per bay

MANY ITEMS CAN BE MODIFIED TO MEET YOUR NEEDS

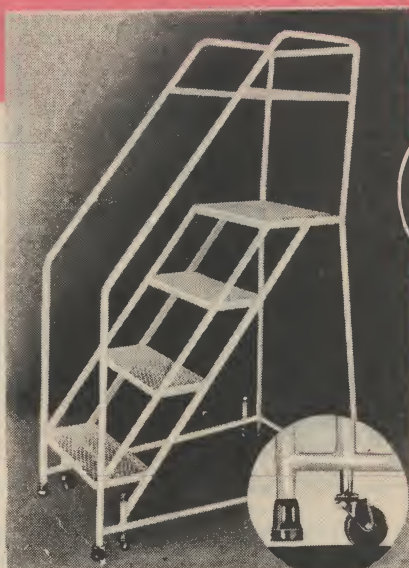

MEETS  
OSHA  
REQUIREMENTS

**Don't carry it—  
just roll it where you want it.**

These ladders get more work done because you roll them to where the work is—instead of carrying heavy ladders. When you step on the ladder, up go the casters and down come four rubber tipped legs, anchoring the ladder securely to the floor. Step off and presto! The Spring-loaded casters re-engage - ready to roll. It's automatic convenience and automatic safety! Non-slip. Safety grating step plates welded to 3/4" steel tubing frame assures long, trouble free, safe use in stores, stockrooms, tool cribs, parts departments warehouses and offices. Set up ladders: 2 through 7 step have 2" spring mounted casters; 8 step and higher have casters, (2) swivel (2) rigid plus step lock. All have 9" D. steps, 8 thru 12 step have an oversized top step. Knocked down ladders 4 and 5 step with 3" spring loaded casters, others have foot operated locking device with 4" casters. All 7" D. steps with 10" D. top step. Hand rails on 4 step and larger ladders are approximately 28 1/2" above top step. Finished in non-rust paint.

## ALUMINUM EXTENSION LADDERS

(250 # WORKLOAD)

**Rugged service at lowest cost**

Meets all code requirements of OSHA and American National Standards Institute for portable metal ladders. Underwriters' Lab. Listed.

This ladder is designed for a 250 lb. load (a 200 lb. man with a 50 lb. work load). Safety factor of four (4) when set at the proper working pitch of 75 degrees to the ground—or the base of the ladder out from the top support point 1/4 of the working length.

**RAIL END FITTINGS**  
Cast aluminum top and bottom plugs protect rail ends.

## CHAMPION ALUMINUM STEP LADDER

(225# WORKLOAD)

**The premium step—Priced right**

The Champion Step Ladder is a medium duty step ladder—designed to give years of maintenance free service.

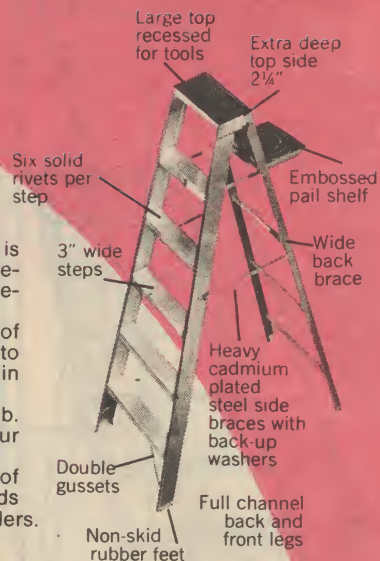

The outstanding features of this ladder were designed to eliminate the hazards found in low grade products.

Designed for use by a 225 lb. man with a safety factor of four (4).

Meets all code requirements of American National Standards Institute for portable metal ladders.

Heavy cadmium plated steel side braces with back-up washers

Double gussets

Non-skid rubber feet

Full channel back and front legs

## FIBERGLASS NON-CONDUCTIVE LADDERS

**For industry and utilities**

- Load rated design—250 lb. work load with a safety factor of four (1000 lb. capacity)
- Shock-resistant rails with aluminum steps
- Skid-proof pads
- Heavy gusset bracing
- Meets all code requirements of A.N.S.I. and O.S.H.A. safety requirements.

Top cap

Slide guides

Rung locks

Safety shoes

Trailing slide guide—slotted bottom casting protects the rail ends and acts as the bottom or trailing slide guide.

Aluminum Wrap-Around Sleeve—an exclusive feature. Gives extra support at the critical area

SAFETY AT HEIGHTS TO 32'

## ROLLING SAFETY AERIAL LADDER

Now maintenance men can work at elevated heights safely, conveniently. Heavy aluminum angle forms saddle at critical pivot point. Assures rigid connection between the steel base and aluminum or fiberglass extension ladder.

- Designed to support a 200# man with a safety factor of four
- Work platform permanently attached to fly section provides comfort and safety for the user
- Serrated rungs secured to 3 inch solid I-Beam side rail
- Out-riggers extend to both sides giving greater safety and side stability
- 4" Rubber Wheel Casters
- All ladders are 30" wide, folds to 78" high.

Fits through standard 7' door

# HYDRAULIC MAINTENANCE PLATFORM

*Self-propelled  
or towable*

**Working  
Heights to 34'  
Up to 2000 lb.  
capacity**

**Battery,  
Gasoline,  
or Electric  
Powered**

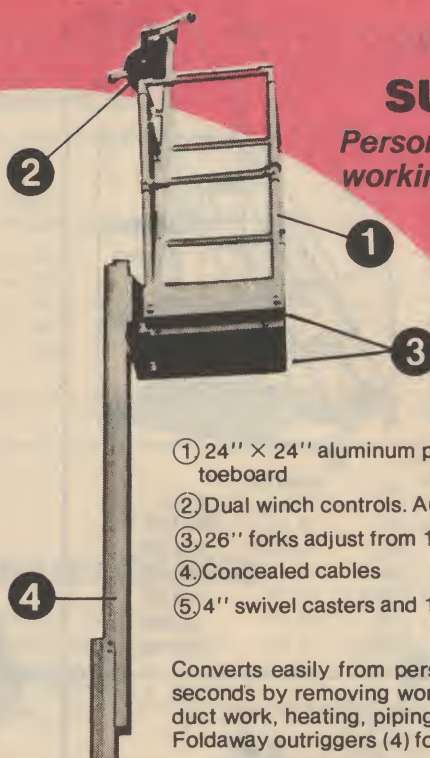

- PUSH BUTTON CONTROL
- POWER STEERING
- REMOVABLE GUARD RAILS WITH TOEBOARD
- OUTRIGGERS WITH LEVELING JACKS FOR INCREASED STABILITY.
- 15" PNEUMATIC TIRES.

(8" solid wheels on models 458101 and 458105)

Transports and lifts men, tools and materials. Increases efficiency of all your overhead work... installation, maintenance, electrical, heating, lighting and countless other jobs. Raising, lowering and travel controlled entirely from platform.

# SUPER LIFT!

*Personnel/material lift  
working heights to 31'*

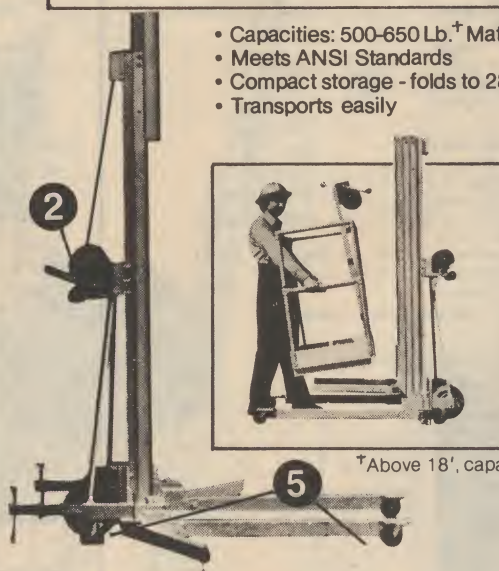

- ① 24" x 24" aluminum platform\*, guardrails, 4" toeboard
- ② Dual winch controls. Automatic safety brake
- ③ 26" forks adjust from 10" to 22" wide.
- ④ Concealed cables
- ⑤ 4" swivel casters and 10" transfer wheels.

Converts easily from personnel to material lift in seconds by removing work platform. Handle your duct work, heating, piping, lighting etc. with ease. Foldaway outriggers (4) for increased stability.

## SAFETY MAINTENANCE PLATFORM

**Converts any fork lift truck or stacker into a safe, efficient work platform at low cost!**

1. 42" high rail on 3 sides... safety chain front 30"x30" platform.
2. Safety mid-rail
3. Side adjacent to lift truck is expanded metal mesh safety screen
4. Safety platform has a capacity of 500 lbs., slip resistant checkered tread and protective 4" toe guard on three sides
5. Rugged welded pipe-frame construction
6. Casters permit attaching to forks and rolling into storage space when not in use
7. Base-frame 36"x36" - won't slip from fork truck

### BASE FRAME

Contains two sturdy channels 7½" wide by 2½" high to accommodate forks. Each channel has thumb advance threaded lug which engages fork to insure against slippage.

#### 501190 - High Model

Platform 72" above forks for working height of 12 feet. With casters.

**\$324.50**

#### 501192 - Standard Model

(Not shown) 48" from forks to platform for 10 foot working height above forks. With casters

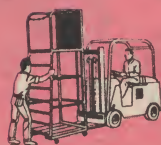

**\$302.50**

#### 501196 - Extra High Model

Platform 120" above forks for working height of 16 feet. With casters

**\$462.00**

Color: Safety Orange

Push onto forks

Climb aboard

**PLATFORM** 30" x 30" with casters. Fits onto forks

501194 ..... **\$247.50**

## SCAFFOLDS *Quick . safe . efficient one man set up*

Constructed with your safety in mind. High strength quality steel parts have been tested to insure designed strength and assure durability of service. Automatic cam operating locks on all platform supports snap quickly into place. There are no springs to snap, break, or fill with paint, plaster or dirt thereby making them inoperable.

Platform heights over 10 Ft. Require handrails and toe boards.

scaffolds are 25" deep

1½" O.D. square tubing.

Castors, base plates, leveling device; optional.

Steel channel reinforced plywood platform—adjustable on 6" centers.

Rigid, welded bracing for platform support.

6' H. ladder ends with welded dowel for multiple stacking.

Automatic operated cam lock. Securely locks platform truss to ladder frame.

Rungs on 12" centers give access to platform.

# DRUM LIFTERS AND RACKS

*For safe, efficient drum handling*

Provides long, trouble-free service on the day-to-day stacking and handling of drums at a low cost price. Racks are designed for compact orderly drum handling and storage. Built of heavy-duty structural steel and will handle 30 and 55 gal. drums up to 750 lbs.

**BATTERY POWERED:** 12-volt, 95 Amp./hr. battery with built in charger. Compact hydraulic unit combines 12 volt motor, rotary gear pump, oil reservoir and flow regulator.

Model No. 278702 - 1,000 Lb. Cap., 72" Lift, 96" O.H. **\$820.00**

**FOOT OPERATED:** Hydraulic pump raises load easily, release pedal provides controlled lowering.

Model No. 278704 - 1,000 Lb. Cap., 53" Lift, 78" O.H. **\$485.00**

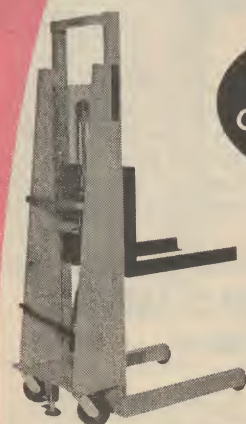

**MANUAL LIFTER:** Maintenance free manual crank with automatic friction disk clutch, safety ratchet and pawl, holds load at desired height.

Model No. 278706 - 750 Lb. Cap., 55" Lift, 78" O.H. **\$530.00**

Model No. 278708 - 750 Lb. Cap., 73" Lift, 96" O.H. **\$620.00**

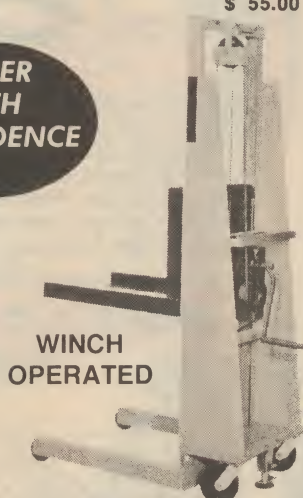

**PLATFORM PLATE** - Convert drum lifter into solid platform lift or die handler with this slip on 25" X 26" platform plate. (Not shown.)

Model No. 278710 **\$ 55.00**

**FOOT OPERATED**

**ORDER  
WITH  
CONFIDENCE**

**WINCH  
OPERATED**

**BATTERY POWERED**

**3 Drum Rack**  
70"H X 33"W X 36"D  
Model No. 482800  
**\$158.00**

**4 Drum Rack**  
46"H X 60"W X 36"D  
Model No. 482802

**12 Drum Rack**  
Access at both ends  
Model No. 482808 **\$250.00**

## DRUM LIFTER

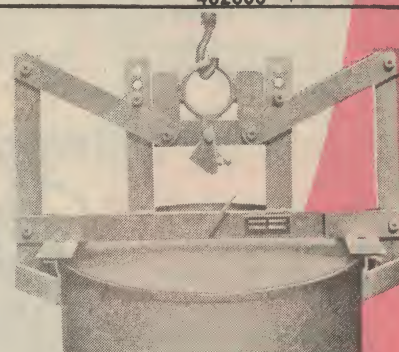

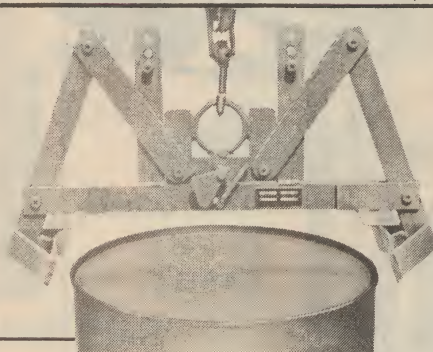

**1000 lb. cap.**

Model No.  
190540

**\$98.00**

**Quick, safe, efficient  
automatic latching**

Raise and move loaded 55 gallon drums in remote or hard to reach areas. Simple and positive grab mechanism automatically attaches to drum. Reverse latch to set drum down. Disconnects only after load is safely down.

**SAFELY  
CARRIES**

## DRUM CADDY

**Take work out of  
Drum Handling**

**Stop injuries, reduce waste**

**SAFELY  
DRAINS**

Model No.  
398100

**\$29.95**

This inexpensive handling tool can pay for itself in a day's time! Just drop it over the 55 gal. drum top, give the clamp a twist, lift with fork lift and you're ready to roll. Made for rugged duty from high-tensile steel, 1000 pounds weight limit.

## NEW! DRUM PLUG WRENCH

**Opens them all! Bronze alloy  
non-sparking**

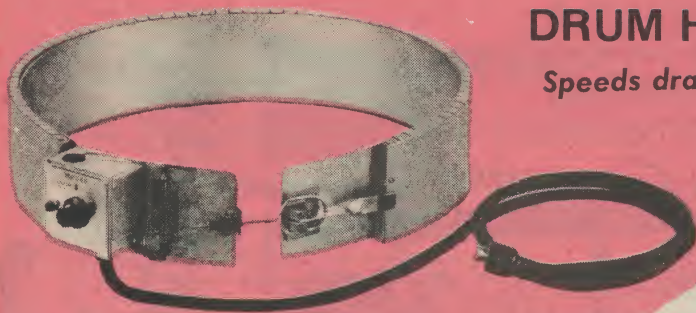

**At last! A fool  
proof drum wrench that  
quickly removes any drum plug!**

Model No. 227200  
**\$19.95**

It's now easy to open virtually all drum plugs. This strong bronze alloy tool has triple the strength and hardness of aluminum—and is more corrosion-resistant than steel! Eliminates the danger of sparking and protects the hand with its offset handle.

## DRUM HEATER

*Speeds drainage*

**1. Clamp it on.**

**2. Plug it in.**

**3. Get instant heat!**

Ideal for quick-safe heating, melting of solid and semi-solid resins, greases, adhesives and similar viscous materials. Conveniently wraps around straight side pail or drum and is secured by spring held, self adjusting toggle clamp. NOTE—Not to be used with volatile substances.

### THERMOSTAT CONTROL MODELS—55 GAL. DRUMS.

Model No. 362738	Temp range 48°-250° F., 1500 watts, 115V-1-60	\$104.50
Model No. 362750	High-Medium-Low 115V-1-60	\$ 71.50

## HEATER CRADLE

Model No.  
362860

**\$434.50**

Simple one man operation... tilts, transports, heats, dispenses. Telescoping handle tilts 55 gallon drum from vertical to horizontal. Wheels for easy maneuvering. Drum tilts forward at 20" drainage height. Infinite heat control with pilot light, 240V-AC-340 watts. Three flexible spring mounted heater bands assure optimum contact with drum face. Insulated aluminized reflector minimizes heat loss.

## FORKLIFT DRUM DUMPER

Handle drums with fork lift operator in complete control.

- **SADDLE** - Safety spring loaded pawl, cinches tightly around drum
- **CHAIN** - 20' long with 10' drop, 360° Rotation
- **FORK POCKETS** - 6½" W x 30" D x 2" H, spaced 24" apart (37" o.d.)

### TRANSPORT LIFT

## HYDRAULIC DRUM DUMPER

• Grip • Transport • Stack • Dump

**Fits Any Drum  
2,000 Lb.  
Capacity**

Simply attach to fork lift, grip and tilt your drum, with controlled hydraulic power to as much as 180°. Gradually tilt and stop in any position desired. Drums of any size can be handled, hydraulic clamping jaws adjust instantly to drum. Overall size 47" L x 37" W. \*Fork Pockets 1½" x 6", 9" to 24" Jaw Opening. For use with gasoline or propane fork lift trucks.

Model No. 332400 Price **\$1370.00**

**MECHANICAL DRUM GRIPPER** - For 55 gal. drums. Grips mechanically by operator using a fast acting screw jack. Dumping is easily performed from fork lift by pulling a cable to release drum. Weight of drum forces unit to dumping position...when drum is empty it automatically returns to upright position. 2,000 Lb. capacity. Overall size 36" L x 41" W, \*Fork Pocket 1½" x 6", 20" to 23" Jaw opening range allows easy gripping on drum.

\*Specify if otherwise. Model No. 332402 Price **\$660.00**

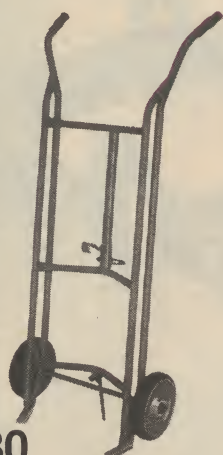

**Handles up to a 55 gal. drum**

## DRUM AND BARREL TRUCK

A safe and easy way to handle your drums. Just hook adjustable hook over rim, pull back on handles and drum will automatically slide back over beveled toes of truck and automatically be held in place. Large 8" diameter molded on rubber wheels. Simple foot operated trip stand permits truck to stand in vertical position when not in use. Handles up to 55 gal. drum.

149534 **\$109.80**

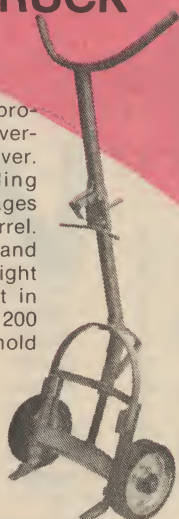

## Lift engineered AUTOMATIC DRUM TRUCK

Ruggedly built to provide maximum leverage on break over. Adjustable sliding hook readily engages rim of drum or barrel. Convenient kick-stand holds truck in upright position when not in use. Capacity 1200 lbs. 10"x2 1/2" mold on rubber wheels.

Model No. 482532

**\$138.55**

## Global takes the load off the man SAFETY DRUM TRUCK

A unique four wheel hand truck. Designed so that the operator has no weight to support. He only has to push the truck. Auxiliary wheels permit pallet loading or transporting over curbs

Model No. 149530

**\$192.45**

Large 10" ball bearing rubber wheels

6" ball bearing rubber wheels

## NEW! DRUM LIFTER

Economically turns your fork lift truck into an efficient drum handler.

Model No. 190328 same as 190326 except explosion-proof motor

**\$ 880.00**

### STATIONARY MODEL

- Capacity up to 1000 lbs.
- 1/2 H.P. gear head motor with 1" diameter drive shaft. Capacity 1000 lbs. liquid load. Dry loads— 400 lbs. at 10 R.P.M., 300 lbs. at 20 R.P.M., 200 lbs. at 40 R.P.M.

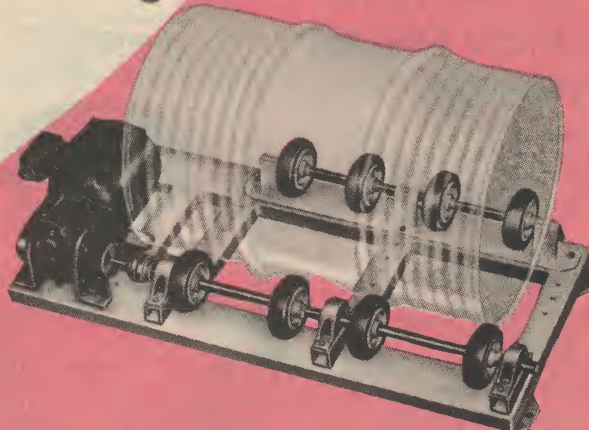

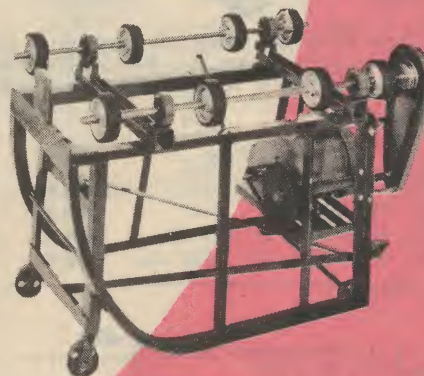

Model No. 190331 Fixed speed of 10 R.P.M., will be furnished unless 20 or 40 R.P.M. is specified. Enclosed 1/2 H.P. motor. **\$ 745.00**

Model No. 190333 same as No. 190331 except explosion proof motor **\$ 800.00**

Model No. 190336 Variable speed drive 7-40 R.P.M., Enclosed 1/2 HP Motor

**\$1245.00**

Model No. 190338 Same as No. 190336 except explosion-proof motor **\$1310.00**

## TILTING DRUM CRADLES

### Accident proof

Maximum safety in one-man operation. Puts either 30 or 55 gallon drums in ready-to-drain position quickly. Arc welded construction. Both models come with 3" non-sparking aluminum wheels for added mobility.

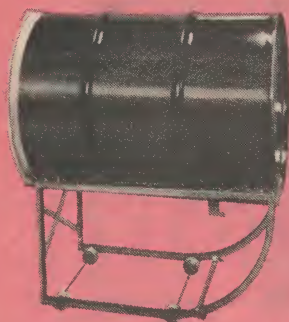

**MEETS  
OSHA  
REQUIREMENTS**

No retractable handle.

Model No. 233574 — \$35.50

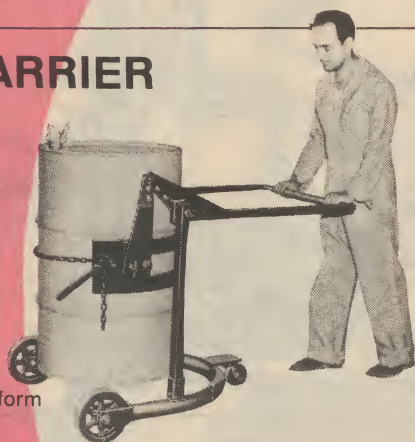

Retractable handle.

Model No. 233572 — \$37.65

## DRUM CARRIER

- RAISES
- ROTATES
- TRANSPORTS
- TILTS
- DRAINS

One operator can perform five operations with less damage to drums and fewer accidents. Automatic safety lock keeps drum at desired position. Adjustable leverage for drums up to 800 lbs., floor clearances 5 1/8" - 11 1/2". Smooth, easy rolling, 8" rubber tired load wheels and 4" rear swivel caster.

Model No.	Drum Type	Price
190416	55 gal. drum	\$234.00
190418	30 gal. drum	240.00
190420	Fiber drum 21"—23" dia.	260.00
190422	Fiber drum 19"—20 1/2" dia.	270.00

## "SPILL-LESS" OPEN DRUM TRUCK

Open drums are easily transported with less danger of spillage.

### "SPILL-LESS" FEATURES

- 1,000 lb. capacity
- handles 55 gal. drum easily
- All-welded steel construction
- 3" heavy duty swivel caster at handle
- Two 6" load wheels

**Danger free**

**AS LOW AS  
\$52.75**

952892 Straight Handle \$52.75  
952894 Hinged Handle 59.95

Global solves your drum problems

## HEAVY DUTY PORTABLE DRUM RACKS

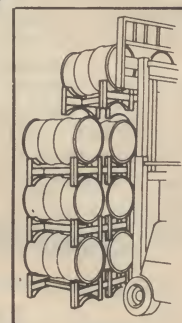

**AS LOW AS  
\$30.98**

Supports two loaded 55 gallon drums securely and permits orderly stacking of pairs of drums. Cradles of heavy gauge steel economically provide maximum protection, accessibility, and versatility in the handling and storing of drums.

1500 lb. capacity per rack

12,000 lb. capacity stacked

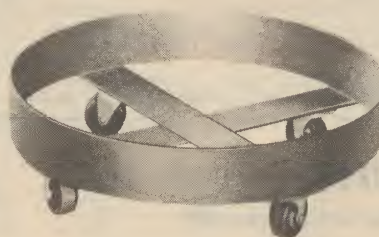

Model No.	Welded-ready to use	1-11	12-24	25-49
952964		\$35.98	\$34.20	\$30.98

Wheel them... don't carry them

## HEAVY DUTY DRUM DOLLY

Don't let your old drums just stand around. Put them on wheels and make them earn their keep. Ample for your heaviest loads. All welded construction.

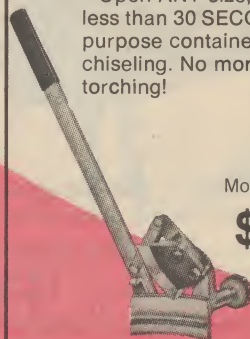

Model No.	Diameter	Drum size	Wheels	Capacity lbs.	Price
952880	24"	55 gal.	3" steel	1000	34.94
952882	24"	55 gal.	3" rubber	600	34.94
952884	19 1/2"	30 gal.	3" steel	1000	33.75
952886	19 1/2"	30 gal.	3" rubber	600	33.75

Cut open any drum in seconds

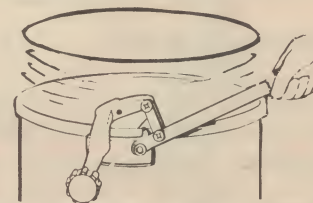

## INSTANT DRUM OPENER

• Open ANY size, ANY gauge drum • One hand operation, takes less than 30 SECONDS • Cut so clean that drum is re-usable as all purpose container! You'll never again cut and mash fingers from chiseling. No more danger of explosive fires from sparks or from torching!

Model No. 226376

**\$49.95**

(Empty drums make valuable storage containers)

Rugged precision cutting instrument. Heavy forged steel — alloy blade • maintenance free

For accurate controlled pouring

## DRUM-CARRIER

Moves drums safely, dependably by monorail or crane designed for fast, easy moving and dispensing of drums by one man. Simply hook the drum-carrier to monorail host or crane... snap carrier saddle between chimes of drum... cinch tightly... and the drum is ready to go. Positive tilt locks hold drum in vertical position during travel. Release locks, tilt drum and dispense contents. Capacity 800 lbs. When container is full; 500 lbs. when half full.

... it never misses

Model	Size	Price
190250	For 55 gal. steel drums (22½" dia.)	\$ 95.00
190252	For 30 gal. steel drums (19" dia.)	105.00
190254	For fiber drums—adj. 21"-23" dia.	115.00

It's a cinch to handle  
fully loaded 55 gal. drums

## HYDRA-LIFT KARRIER

800 LBS. CAP.  
Fully loaded

Tilt control

To load, push the Hydra-Lift Karrier up against the drum and cinch the saddle.

To move, simply pump jack handle 2 or 3 times for drum to clear floor. Then wheel it where you want.

To lift the drum to any height up to 60" above the floor, just pump the jack handle a few times.

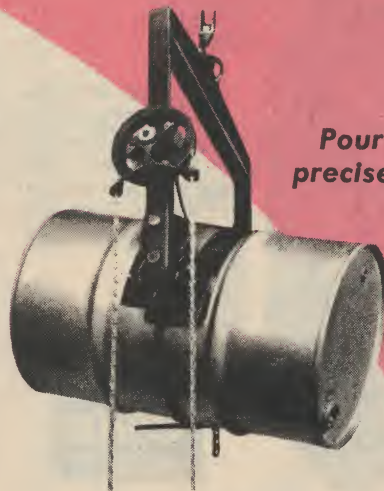

Safe, sure and simple  
handling by one man

Model 190270

\$ 830.00

## KONTROL-KARRIER

Safe, efficient, high level, controlled pouring. A remote control unit that extends the advantages of accurate hand tipping on the floor to drum tipping operations at any height or location in the plant. The kontrol-karrier cuts labor time, minimizes spillage and improves plant safety. Easily operated by one man. Handles 800 lbs. when container is full—500 lbs. when half full. Tipping capacities vary with type and amount of load carried.

Pours  
precisely

Model	Size	Price
190256	For 55 gal. steel drums (22½" dia.)	\$ 229.00
190258	For 30 gal. steel drums (19" dia.)	238.00
190260	For fiber drums—adj. 21"-23" dia.	254.00

### Automatic

## DRUM HANDLING ATTACHMENT

Easily and quickly attached, no hydraulic or electric connections required. Unit slips onto forks and is tightened into position by turn-down screws. Enables a forklift operator to lift, transfer and deposit any 30 or 55 gallon drum without leaving his seat, and without assistance. The drum is maintained firmly horizontal and deposited gently in the same position.

Engaging arms are constructed of heavy gauge steel on an eccentric cam that applies a firm pressure automatically by action of the loaded drum—can't slip. Not designed to handle fibre drums.

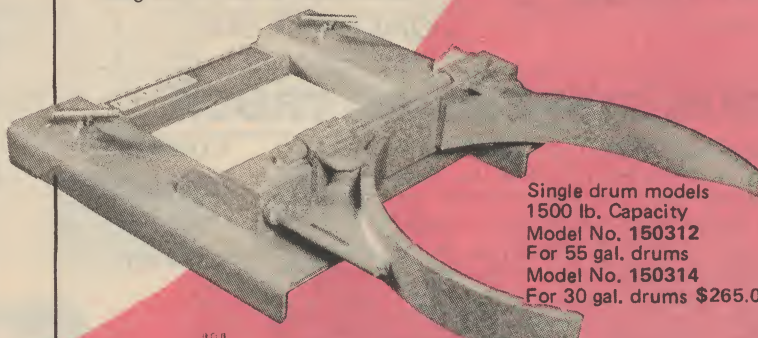

NO ATTACHMENTS.

AUTOMATICALLY ENGAGES  
DRUM TO LIFT.

AUTOMATICALLY RELEASES  
DRUM IN STACK POSITION.

## 55 GALLON SAFETY DRUM CABINET

Store flammable, combustible  
liquids...safely

Double-wall 18 gauge welded steel construction, two inch leakproof sill, leveling feet. Closable vent prevents vapor build-up. Three-point door lock with key. Safety yellow.

CONFORMS TO  
N.F.P.A. CODE 30

meets  
**OSHA**  
standards

**Horizontal Drum Model:** Sliding self-closing door with fusible door link. If fire or heat exceeds 160° F, fusible link melts and door closes automatically! 34"W × 50"D × 50"H.

Model No. 440200 **\$575.00** ~~\$718.20~~ List

**Vertical Drum Model:** Where space is a problem this two door cabinet takes up minimum of space.

34"W × 34"D × 65"H. Model No. 440202 **\$566.00** ~~\$707.25~~ List

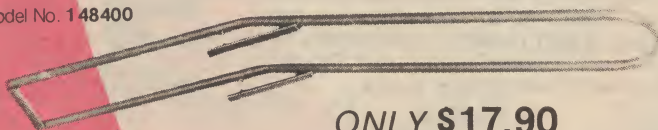

See below for drum faucet, pg. 44 for drum cradle

## DRUM TILTING BAR

Up-end drums quickly, easily  
and safely

A real back saver. Double bar clips securely over chine of drum for easy, safe tipping. Constructed of heavy steel tube and bar stock. 46"L × 6½"W. Green enamel finish.

Model No. 148400

**ONLY \$17.90**

## DRUM DISPENSING TRUCK

Sliding hook slides to engage chine of barrel or drum, holds securely. Double drum saddle elevates drum to 13½" H for easy horizontal pouring. 10" x 2½" rubber tired wheels. 600 lb. capacity.

**Lowers to  
horizontal  
pouring  
position**

Model No. 190600

**\$147.00**

## DRUM TRANSFER PUMP

Safe...quick  
...low cost

Measured flow for a wide variety of liquids. Rotary unit provides steady, even flow while assuring prompt cutoff to avoid overfills and spillage. Easily installs in 2" bung opening. High vacuum output to 12 G.P.M. Padlock hasp prevents unauthorized use.

• BUILT FOR ROUGH  
INDUSTRIAL USE

• UL & FM APPROVED

- Pumps industrial solvents, alcohols & fuels safely & easily.
- Built-in strainer, check valve and 8' rubber hose.
- 20 Gal. counter dial. • Pressure relief valve.

Model No.	Description	Price
440100	Pump, 8' Hose (less counter)	<b>\$154.80</b>
440102	Pump, 8' Hose, Counter	<b>182.30</b>

## Low cost Adjustable **DRUM PUMP**

Use on 15, 30 and 55 gal. drums

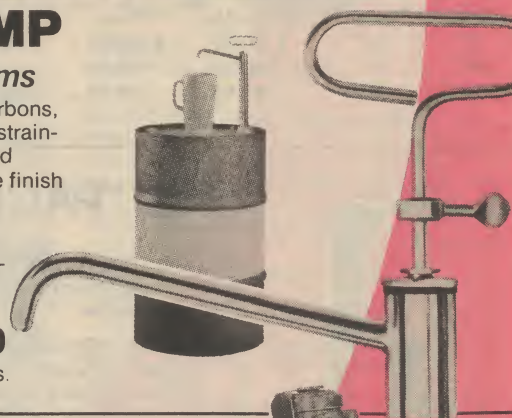

Ideal for most non-corrosive fluids . . . Hydrocarbons, solvents, thinners, cleaning agents, etc. Set restraining collar to adjust amount of liquid needed. Eliminates waste and container tilting. Chrome finish steel pump body fits 2" threaded opening.

Model No. 472100 \$19.95 (3 or more) **\$17.95**

**Acid Resistant Stainless Steel Model-** Corrosion-Proof 304 S.S., handles most acids and alkalis.

Model No. 472102 \$54.95 (3 or more) **\$52.50**

**5 GAL. Pail Adaptor** - Fits 1½" threaded spouts. Model No. 472106 \$4.95

## **BUNG MIXERS**

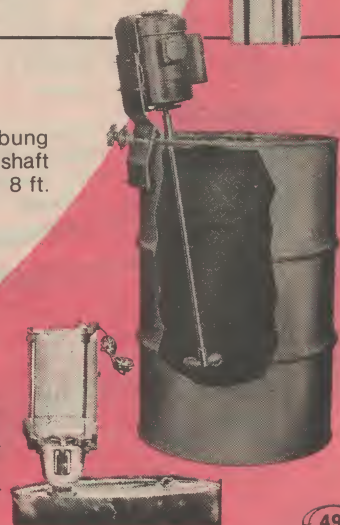

Fast, efficient mixing for 55 gal. drums

Special unique folding propeller design allows entry thru bung opening. Opens to 3½" dia. when operating. 316 stainless steel shaft and propeller. Single phase 115-230, 1725 RPM motor with 8 ft. cord.

**SCREW-IN TYPE:** Fits standard 2" bung opening. 29½" shaft

**CLAMP-ON TYPE:** Clamps to lip of drum, shaft angles toward center of drum. Can also be used on open top drums.

## HYDRAULIC LIFT HAND TRUCK

*Lets one man do the work of six*

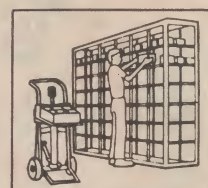

1. Easy to load
2. Moves parts to work stations
3. Use for stocking shelves and racks

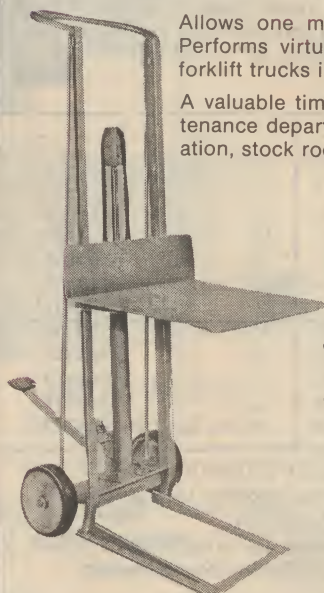

Easy to load

Moves parts to work stations

Use for stocking shelves and racks

Allows one man to handle many back-breaking jobs! Performs virtually the same lifting operations as large forklift trucks in the same space as a handtruck.

A valuable time and money saver for every shop, maintenance department, production line, warehousing operation, stock room, parts department, etc.

- Only 60 lbs. of effort easily lifts capacity load of 500 lbs.
- Large 8"x2" moldon rubber wheels with roller bearings move loaded truck without strain or pain.
- Lifts 1 1/4 vertical inches with each pedal down-stroke.
- Foot-operated hydraulic platform, leaves operator's hands free
- Center of gravity designed for perfect load balance
- Fold-away foot pedal

## HYDRAULIC SCISSOR LIFT

Cuts fatigue...  
adds productivity

For furniture manufacturing, die handling, machine shops, assembly and production lines. Handles repetitive lifting and lowering action; reduces fatigue and speeds production.

- Raises in 18 seconds
- Lowers in 10 seconds
- 110 volt hydraulic pump
- Control valve maintains cylinder pressure in case of power failure.

Model No. 232100

**\$85.30**

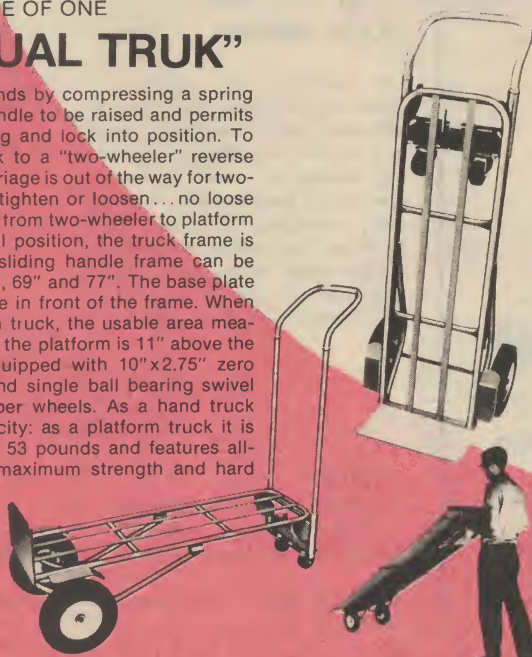

2 TRUCKS FOR THE PRICE OF ONE

## ALL NEW "DUAL TRUK"

Dual purpose, converts in seconds by compressing a spring loaded catch that allows the handle to be raised and permits the casters and handle to swing and lock into position. To change the platform truck back to a "two-wheeler" reverse the procedure and the caster carriage is out of the way for two-wheeling. No thumb screws to tighten or loosen...no loose pieces to lay down in converting from two-wheeler to platform truck. When used in the vertical position, the truck frame is 52" high at low position. The sliding handle frame can be raised to locked positions at 61", 69" and 77". The base plate provides 8" x 14" of usable space in front of the frame. When used horizontally, as a platform truck, the usable area measures 42" long by 14" wide, and the platform is 11" above the ground. The "Dual-Truk" is equipped with 10" x 2.75" zero pressure rubber-tired wheels and single ball bearing swivel casters with 3" x 1 1/4" solid rubber wheels. As a hand truck it is rated at 400 pounds capacity; as a platform truck it is rated at 700 pounds. It weighs 53 pounds and features all-welded steel construction for maximum strength and hard service.

Model No. 232510

**\$ 99.35**

## WELDING CYLINDER TRUCKS

MOVE TANKS SAFELY

The continuous handle gives the truck frame more rigidity and provides a push bar for two men when necessary. Equipped with large tool box and cylinder safety chain.

## MIGHTY KING DESK LIFT

*Moves any desk simply, easily and safely...*

Field tests show desks can be moved for floor maintenance in less time than required to clean, scrub and wax around them.

Model 268602  
**\$112.50**

- Heavy duty roller-bearing casters rotate freely in full 360° circle for easy maneuvering with or without load
- Removable handle and tubular lift frame completely coated with non-mar material
- Positive safety latch automatically locks in raised position—single trip for release
- Load capacity — 600 lbs.
- Height — 4 1/4" lowered — 9 3/4" raised
- Overall dim. — 22" x 32"

**NEW!**

## LIFT-A-FILE

*Move fully loaded files quickly, safely, easily*

No need to remove drawers or adjacent files, cantilever action lets one person easily handle operation. Double action suction cup firmly grasps top of cabinet, grip-tite arm secures cabinet to truck and lever arm automatically raises cabinet off floor onto truck. 500 Lb. capacity, adjusts to any file cabinet up to 64" high. All steel construction with semi-pneumatic ball-bearing wheels.

Model No. 402100 **\$235.00**

## FILE MOVER

*Moving problems made easy*

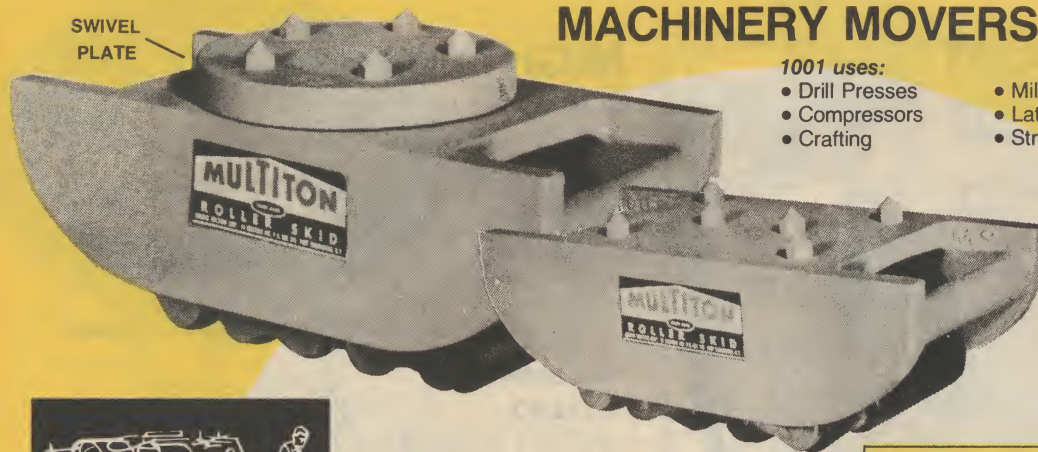

Designed that lever action lifts your load... counter balanced to prevent tipping.

For easy moving of file cabinets, appliances, drums, crates, cartons, etc. • One man operation • Electric welded steel frame. • Non-skid, non-marring, bonded vinyl finish to protect load • Non-marring rubber wheels

Model No.	Capacity	Size Inches	Price
268514	600 lbs.	15 x 32	<b>\$52.00</b>
268516	600 lbs.	18 x 32	<b>\$55.00</b>

## MACHINERY MOVERS

Move Up To 248 Tons

**Quickly,  
Easily,  
Safely**

**1001 uses:**

- Drill Presses
- Compressors
- Crafting
- Milling Machines
- Lathes
- Structural Steel

Supports tremendous loads. Load is concentrated directly over rollers, eliminating unsupported overhang which ordinarily exists on all axle supported carriers. Hardened steel rollers assures constant contact with floor...handles rough cracked floors easily. Swivel models allow turning of load within its own length.

### Time and Money Saving 3 TON MULTITON JUNIOR KIT

## ROLL GOODS TRUCKS

This all welded steel truck is designed to our most rigid specifications. The channel reinforced deck is constructed for years of trouble free use. Smooth ground construction eliminates snagging of goods. 1 5/16" diameter pipe frame. Two swivel and two rigid 8" diameter x 2" tread roller bearing rubber tired wheels for easier movement. Gray enamel finish.  
Overall height—70"  
Height above deck—58"

Short roll model

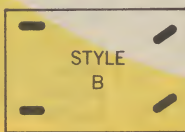

Long roll model

### CASTER MOUNTING

**4-wheel Diamond Pattern** (2 swivel, 2 rigid). Highly maneuverable, mounted level. Not recommended for ramps.

**4-wheel Sq. Non-Tilt** (2 swivel, 2 rigid). Most popular; easily turned or pushed straight, and trails well.

## Stainless Steel PLATFORM TRUCK

Model No.  
172750

**\$274.00**

Move supplies and stock easier!

Platform Size. . . 24" x 48"

Casters

4-5" Deluxe Swivel

2-8" Deluxe Rigid

Handles

1 1/2" diameter 16"

gage chrome plate tubing

1000 LB. CAPACITY

GLOBAL's new platform truck offers the quality of durable, stainless steel, plus the excellent built-in workmanship of their regular carts and trucks. Designed for heavy duty use where stock and supplies are to be moved to a storage or usage area. These new trucks reduce the stress and strain of pushing or pulling because of their maneuverability.

## Stainless Steel SHELF TRUCK

These versatile units save steps and time in any system.

Casters are two swivel and two rigid 5" diameter double race rubber tired wheels with thread guards.

Model No.	Shelf Size	Ht.	No. of Shelves	Bumper	Price
172601	18" x 31"	37"	3	Handle and front leg	\$155.25
172603	18 x 31	37	4		172.75
172605	18 x 31	45 1/2	5		190.50
172607	21 x 35	45 1/2	4	Full wrap around	239.50
172609	21 x 35	50 1/4	6		257.00
172611	21 x 35	54 1/4	8		363.50
172613	21 x 50	45 1/2	4	Full wrap around	331.25
172615	21 x 50	50 1/4	6		436.75
172617	21 x 50	54 1/4	8		535.00

Trucks with flat shelves (shelf edges turned down) will be furnished unless Style B (3 edges up, 1 down) is specified.

### SHELF EDGES

double folded to eliminate all sharp edges and increase strength. They give carts a trim, finished look of excellence.

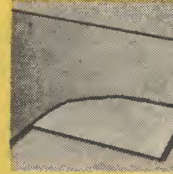

### RUGGED CHASSIS

of heavy steel angle provides a sturdy cart foundation.

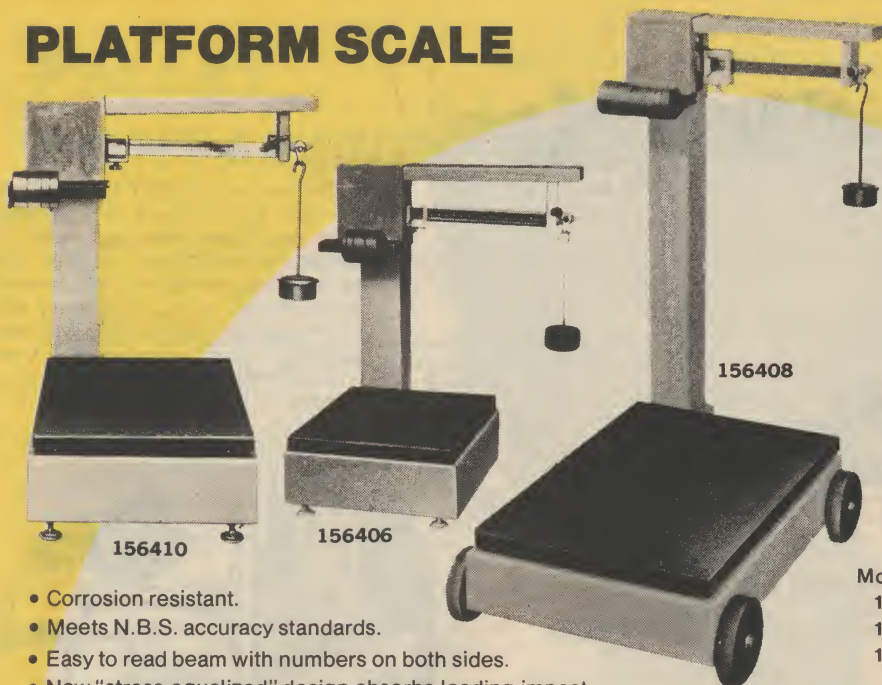

### SOUND DEADENED

padding is mounted to the underside of each shelf to minimize noise and vibration.

## PLATFORM SCALE

## SCALES

You get more scale for your money in this new modular design. Imaginative new scale concept. Members function dynamically together as a completely integrated unit—the rigid channel frame, the twin lever system, the force distribution frame, and even the platform itself. As a result you get a beam scale with balanced and uniform strength.

- Corrosion resistant.
- Meets N.B.S. accuracy standards.
- Easy to read beam with numbers on both sides.
- New "stress-equalized" design absorbs loading impact.

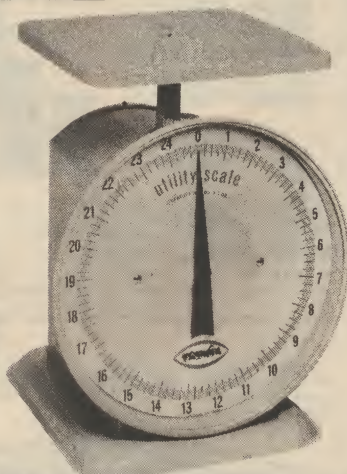

Model No.	Platform Size	Capacity Lbs.	Price
156406	19" x 28"	1000 (100 x ½)	\$332.00
156408	28" x 28"	2000 (100 x ½)	621.00
156410	14" x 17"	300 (15 lb x 1 oz.)	280.00

## UTILITY SCALE

*Accurate, sturdy, dependable*

Low priced, quality scale featuring excellent accuracy, large easy to read 6 1/2" dial. Heavy gauge pressed steel, sturdy construction, zero-adjust knob, 6" x 6" platform.

Model No.	Capacity	Price
412200	25lb X 1oz.	\$32.00
412202	32oz. X ¼oz.	\$31.00

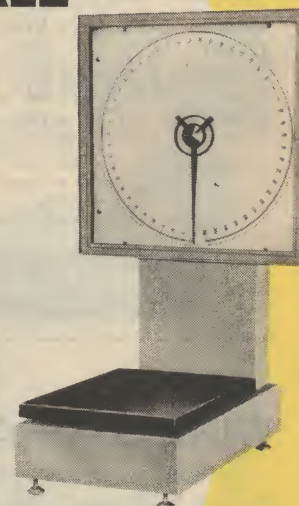

## BENCH DIAL SCALE

Compact design makes this scale ideal for use in shipping rooms, laboratories, assembly lines, stockrooms, warehouses, etc. Built-in knob controls tare adjustment.

- Easy to read 19" dial with bold numbers
- 14" x 17" Platform
- Dirt resistant design
- Lowest maintenance expense record
- Guaranteed weighing accuracy

Model No.	Capacity	Graduations	Price
156520	60	1 oz.	\$620.00
156522	100	1/10 lb.	\$620.00
156524	125	2 oz.	\$620.00
156526	250	4 oz.	\$620.00

## TAPE DISPENSER

Save \$... cut packaging time.  
Cuts any reinforced tape

- Trouble free operation
- Double nylon brushes
- No-spill S.S. water tank
- Reloads in seconds
- Faster adhesion
- Uses tape 1 1/2" to 3" wide

Heavy duty, designed for continuous use. Light bulb heat source maintains water temperature...activates glue for fast, efficient adhesion. Calibrated dispensing speed gives proper penetration of even the heaviest glue.

Model No. 469100 - Dispenses tape at touch of lever, cuts when released **\$139.50**

Model No. 469102 Automatic model - Set dial from 6" to 48" for preset lengths **\$219.50**

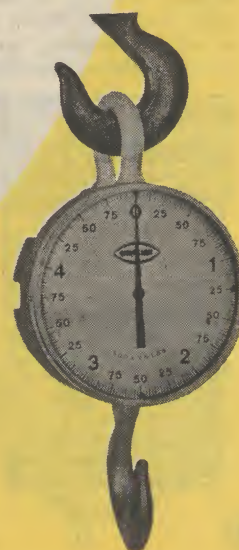

## PORTABLE CRANE SCALE

*Weigh up to 20,000 lbs.*

Made from high strength corrosion resistant alloys with instrument precision. Calibrated in pounds, can be rigged in any position to satisfy any load condition.

- Accurate to within 1% of total capacity, in any position
- 200 graduations
- 8 1/2" D x 1/8" thick shatterproof glass
- Can sustain 25% full range overload without calibration damage
- Adjustable 10% tare

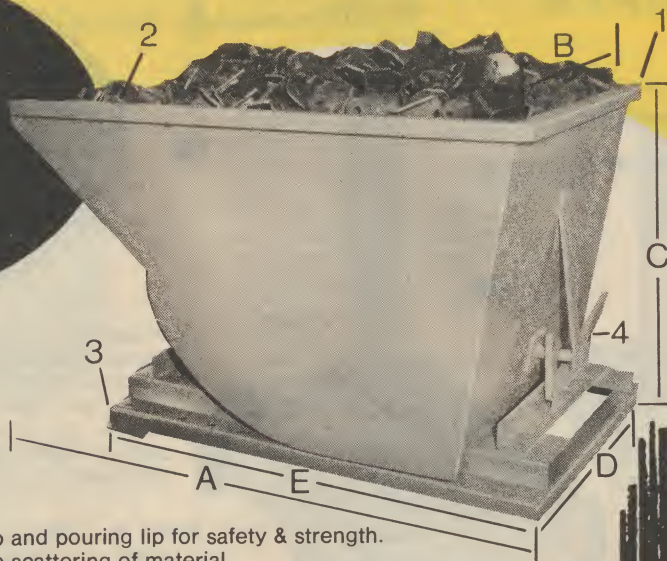

Model No.	Cap. Lbs.	Graduation Lbs.	Price
412100	500	2.5	\$359.95
412102	1000	5	371.45
412104	2000	10	371.45
412106	5000	25	400.20
412108	10,000	50	456.55
412110	20,000	100	531.30

# SELF DUMPING HOPPERS

AS LOW AS  
**\$263.00**

Engineered for **SAFETY & ECONOMY** are made with sturdy 3/16" steel plate body and heavier steel plate base; all welded construction. Hoppers are perfectly balanced to roll forward when loaded, dump completely and automatically return to upright, locked position ready for re-loading. Continuous welding eliminates leaking or dripping of wet materials.

1. Formed smooth edge around top and pouring lip for safety & strength.
  2. Extended sides prevent sidewise scattering of material.
  3. Stacking feature on all sizes optional; permits stacking of loaded or empty hoppers.
  4. Strong, easy-to-operate latching mechanism.
- Finish—Safety Yellow

AVAILABLE CASTER MOUNTED

## Folding WIRE STORAGE CONTAINERS

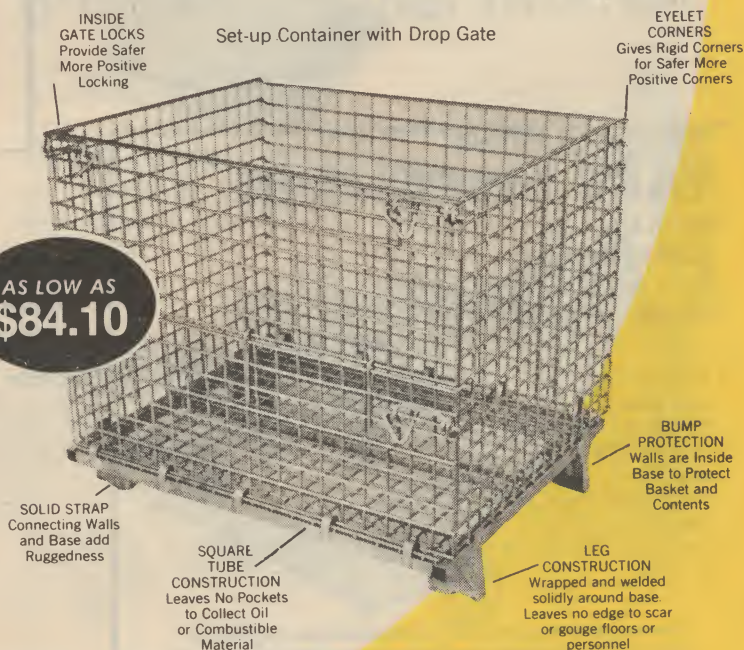

One piece heavy duty folding units 3000-4000 lbs. capacity. This heavy duty model is beautifully designed using the strongest engineered section of 1½"x1¼" square tubing fabricated into the base carriage. The 2"x2" mesh deck of 2 gauge wire is arc welded to these members and the 2"x2" sides heavily reinforced also of 2 gauge wire results in a container of exceptional strength while giving minimum tare weight, thus savings in original purchase price and freight on every load shipped out. This one piece unit folds flat on own base perimeter. Corners are eyelet design giving exceptional vertical rigidity and the best of stacking regulation.

- Folding steel containers for material handling and shipping
- Provides visibility
- Easy inventory control
- Cleanliness
- Folds flat when not in use, sets up in seconds
- Containers stack and interlock for added rigidity
- 4" high stacking legs permit handling by fork lift or pallet jack with reinforcing members
- Can be stacked 4 high
- Half drop gate

**ORDER NOW!!! AND SAVE**

# PALLET CONTAINERS

**FDA APPROVED FOR FOOD HANDLING**

The ideal, efficient palletizing container for bulk handling of food products, powders, grains, chips, parts, bags, refuse -- anything to be handled or stored.

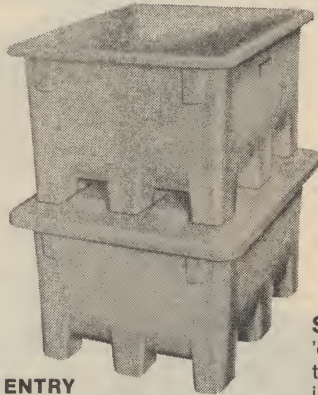

**Solid** - Smooth one piece molded high density polyethylene construction. .300" nominal wall thickness. Easy to clean - no crevices to catch dirt.

**Virtually Indestructible** - Maintenance Free - Won't Rust, Corrode, Rot, Warp, Chip, Dent or Peel. Withstands sub-freezing temperature.

**NESTABLE** - Conserves space when empty, built-in nesting stops eliminates jamming and sticking.

**FOUR WAY ENTRY  
FOR FORK LIFT  
OR PALLET JACK**

**STACKABLE** - Fill 'em, then stack 'em for future use. Form fit covers protect contents; allow safe secure stacking.

# HEAVY DUTY PLASTIC TILT/DUMP TRUCKS

Up to  
2800 lb.  
capacity

White plastic body will be furnished unless green is specified.

Designed for in-plant conveyance and dumping of bulk materials. These versatile trucks are available in three sizes, from the compact ¾ cu. yd. model that passes easily through narrow doorways, to the 2.2 cu. yd. model for handling bulkier materials. Durable, sturdy construction features a molded seamless polyethylene body secured to a strong tubular steel chassis. Two heavy-duty front wheels and rear swivel caster(s) provide mobility and maneuverability. All wheels have roller bearings and greaseproof neoprene tires.

Trucks are easily handled by one person, with comfortable handgrips insuring full control pushing and dumping.

Tilt Trucks meet important OSHA requirements for industrial waste, food, and materials handling; and for industrial edible food handling.

# RECOVERHEET™

RETRIEVES LOST HEAT...  
REDUCES HEATING COSTS...  
INCREASES EMPLOYEE EFFICIENCY

- Improves production, warms cold floor areas.
- Costs only pennies a day.
- Simple to install...operates on 110 volt circuit.

**Pays For Itself In Less Than 2 Years**

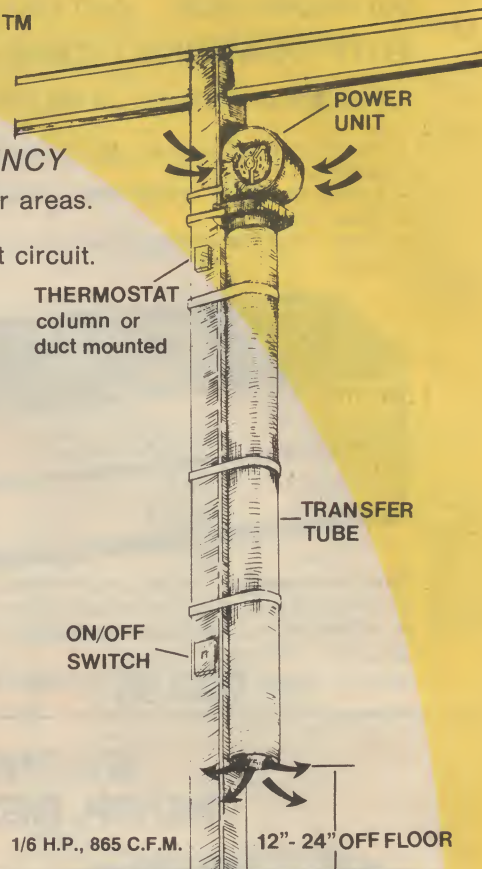

AS LOW AS  
**\$268.00**

PATENT PENDING

RECOVERHEET™ is designed to transfer costly, lost hot air from the ceiling to useful working area automatically and efficiently.

The displacement of cool air at floor level sets up a beneficial healthy air flow. RECOVERHEET™, installed at 20 foot operating level, will cover an area of 2000 to 2500 square feet. The upper third of this zone, (about 10,000- 16,000 cu. ft.) is "pumped" down to the floor level every 15 minutes. Assuming a differential of 25 degrees in temperature from upper to lower levels, RECOVERHEET™ will automatically increase the working level temperature by 10 degrees in less than 15 minutes.

This rise in temperature will effectually cause your plant thermostat to immediately cut back on the amount of fuel consumed, thereby reducing your heating costs.

## INDUSTRIAL VACUUM CLEANERS

**Heavy-Duty Shop-Vacs  
Make Light of Most  
Commercial  
Maintenance**

### 55-GALLON DUAL VAC

- Low-cost clean-up for shop, garage, etc.
- Two 2-stage motors—use as a blower too!

The big vac. . . with big cleaning power, big capacity... and big value! Vac head can be used on any 55-gallon drum, simplifies waste disposal, keeps cost to a minimum! Two 2-stage motors; unit can be used as a blower, too. Ideal for shop jobs! Equipped with 6' x 2½" hose, square nozzle, 1¼" conversion units.

Model No. 378202  
Each \$156.20  
2 or more  
**\$148.90**  
List \$185.95

### RUGGED AQUA-VACS

**Fantastic Power Plus  
the Ability to Pick-Up  
Water, Wet Debris**

#### DELUXE AQUA-VACS

Extra capacity wet-dry vacs with powerful 2-stage bypass motors, automatic float shut-off, coated steel drums for rust-resistant long life. Includes 12' x 1½" hose, 14" master head, heavy-duty vac cart, two-piece chrome-plated metal interlocking wands, brush, rug, squeegee shoe inserts. Fully portable for quick pickup in shop or office.

Model No. 378206  
10-gal. Each \$151.15 (ea.) 2 or more

# LIFE SAVER EMERGENCY LIGHTING

OSHA requires egress illumination as applied by THE LIFE SAFETY CODE, with installation defined by THE NATIONAL ELECTRICAL CODE NFPA70-1971, with unit equipment as approved by a recognized testing laboratory.

## ADVANCED FEATURES

Built-in wall mounting bracket (back out of unit) • Piano-type hinge • Neon bulb • 5" diameter heads • Voltmeter • Test switch.

## Automatic operation

## 7½ Volt DRY CELL BATTERY

Upon failure of the normal AC power supply, the auxiliary lamp circuit is automatically put into operation by a 110 volt relay with heavy duty contacts. Case is protected inside and out with acid resistant gray enamel. Two large 5" diameter heads with 5 hour burning time. Size 12"Lx5"Wx15"H.

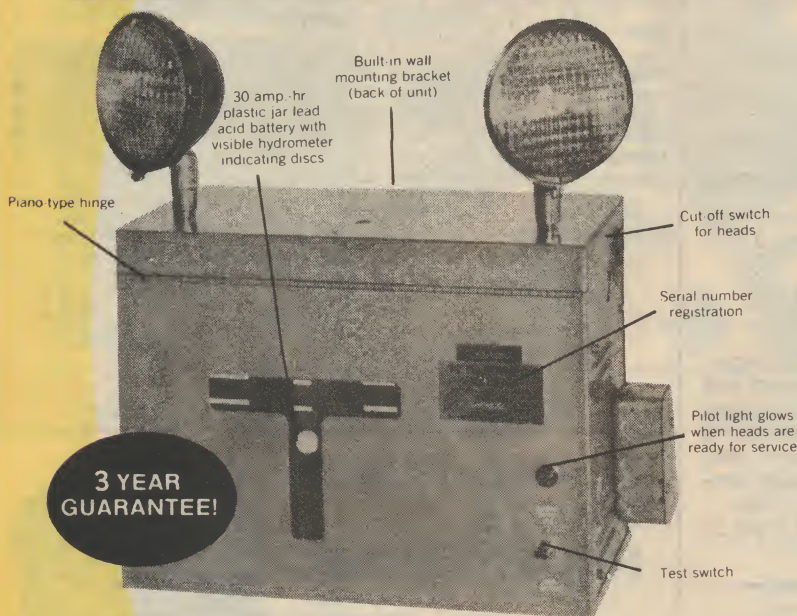

Economy  
Model  
**\$49.50**

## DEPENDABLE

**Floods 4,000 sq. ft. for 5 hours**

Model No. 280410	Emergency Light with 3 wire cord and plug	\$ 49.50
Model No. 280412	Emergency light with junction box* less battery	49.50
Model No. 280414	Dry cell battery (one req. per unit)	11.90

## 6 Volt LEAD-ACID BATTERY

### AUTOMATIC SOLID STATE CHARGING

This UL approved light is designed to provide emergency lighting instantaneously and automatically upon failure of normal power supply. Two 5" sealed beam heads provide 3¾ hours of burning time. Will illuminate up to 10,000 square feet. Recharges automatically after use. Size 12"Lx6"Dx15½"H. Case is protected

### ADVANCED FEATURES

- Acid resistant gray enamel—inside and out.
- Fused Primary and Secondary circuits for full protection.
- A total of five heads can be operated from a single unit.
- Compact Design.

\*Underwriters Laboratories requires a junction box on a unit to qualify as an Emergency Light. Units with cord and plug having lamp heads on the unit qualify as Auxiliary lighting.

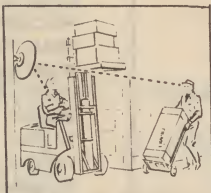

**covers 10,000 sq. ft.**

Model 280420	Emergency light with 3 wire cord & plug	\$134.00
Model 280422	Emergency light with junction box	134.00
Model 280426	Remote head	14.00

Model No. 282470. **\$29.95**

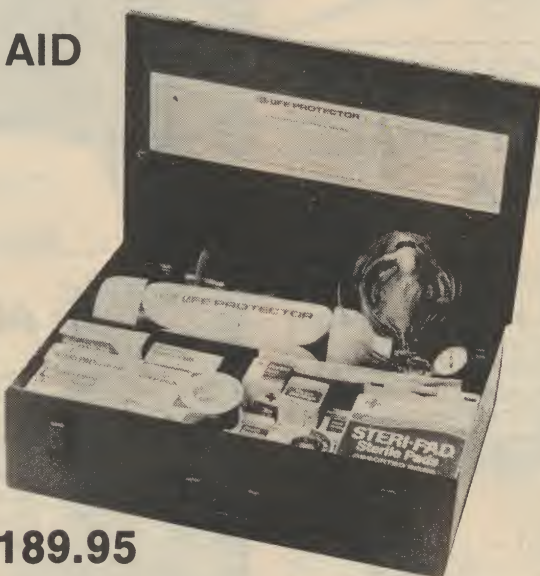

Model No. 282468

## NOW...A FIRST AID KIT WITH EMERGENCY OXYGEN

**Complies with OSHA regulations • refillable • long lasting**

No first aid kit is truly complete without emergency oxygen. The life protector first aid kit combines emergency oxygen with first aid—all in one compact, light-weight steel carrying case.

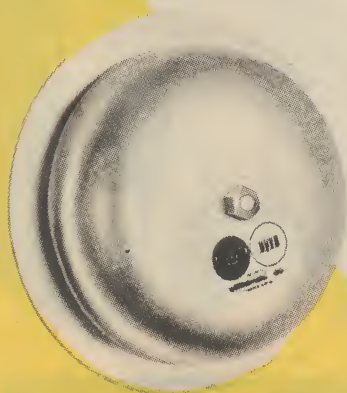

Model No. 364510 **\$189.95**

- For industry, homes, institutions, offices, factories, cars, planes, boats, hotels, municipal buildings, police cars, ambulances, fire and rescue squads.
- Large balanced assortment of first aid supplies.
- All sterile products are in individually sealed packages.
- Serves facilities employing 50 persons.

Here are some of its features...

1. For heart attack victims, accidents, shock and other respiratory crises.
2. 30 minutes of medically pure oxygen.
3. Refillable at local oxygen supply stations.
4. Regulated flow pre-set between 6-9 liters per minute. Averages 7 liters per minute.
5. Easy to operate—just place mask over face and turn control knob.
6. Oxygen remains leak-proof in tank up to 10 years—even without use.

## Wheel mounted BACK-UP ALARM

Model No. 227100 Only **\$24.90** (1-5)

meets  
**OSHA**  
standards

- Low priced
- Fits all industrial trucks
- No wires - no switches - completely mechanical
- Self-contained alarm, works by wheel motion
- Easy to install - maintenance free

(6 or more) **\$23.90**

## SAFETY WARNING LIGHTS

**Why take chances? Play it safe. Put warning lights on your plant vehicles.**

- Revolves 360° • Helps prevent in jury • Increases plant vehicles visibility • Rapid flashing • Self lubricating features assures years of trouble free service • Easily installed •

Amber light will be supplied unless red is specified

**QUALITY PRODUCTS AT REASONABLE PRICES**

## ALL-IN-ONE FIRST AID STATION

**Be Prepared!  
Comply With Osha!**

**50 EMPLOYEE SIZE**—Includes large first aid kit, folding pole stretcher, utility blanket and sturdy aluminum storage cabinet.  
Model No. 484102 **\$190.00**

**100 EMPLOYEE SIZE**—Includes deluxe folding stretcher with casters and restraint straps; giant first aid kit; utility blanket and aluminum storage cabinet.  
Model No. 484104 **\$215.00**

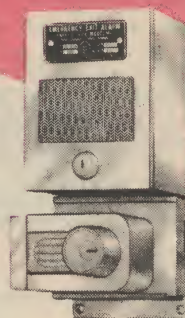

### STRETCHER KIT

**MODEL NO. 484110**—81" Folding stretcher with Feet, Blanket, Plastic Sheet and Wall mounted Aluminum Storage Cabinet. **\$95.00**

## SAFETY ALARM LOCK

*Fits all doors*

**Now...lock fire doors and emergency exits legally**

**EMERGENCY EXIT ONLY**

**PUSH TO OPEN & SOUND ALARM**

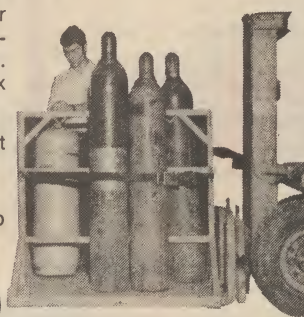

Model No. 106265 **\$128.95**

Insures full-time locking of emergency exit doors while complying with standard safety, fire and building department codes. This day-and-night "watchman" deters pilferage from within or without...yet provides instant exit in event of emergency. Requires no special instructions, tools or keys and combines best features of a panic device plus a warning alarm. First person reaching door releases lock with slight pressure on clapper; door opens automatically and alarm sounds. Locks are reversible for left or right hand doors and are furnished with inside and outside cylinder locks. Batteries included.

## NEW! CYLINDER CART Fork Lifiable ... Handles All Sizes

Handle cylinders easily and cut your costs! Carries large quantity of assorted sizes. Diamond plate platform. Rust resistant finish. 36" W x 48" L x 48" H.

- **Compact** ... fits through in-plant doors, traffic lanes, etc.
- **Easy** loading and unloading
- **Secure** ... heavy duty nylon strap prevents shifting of cylinders.

Model No. 386204 **\$462.00**

Model No. 386206 **\$595.00** same as above except with casters; 2 swivel, 2 rigid, 1200 lb. cap.

## Stop pilferage and protect personnel

### PILFER GUARD

Use with existing locks or panic devices

Deters unauthorized use of emergency exit doors. Maintains doors unlocked as required by fire, building and safety codes. Mounts on interior surface of door. For in-swinging and outswinging doors. Permits setting device either alarmed or non-alarmed. Opening the door, causes twin horns to sound. Operates from outside door by the use of rim type cylinder. Test button signals condition of batteries and circuit. Batteries included.

**The low cost  
exit door  
alarm**

Model 106270

**\$64.50**

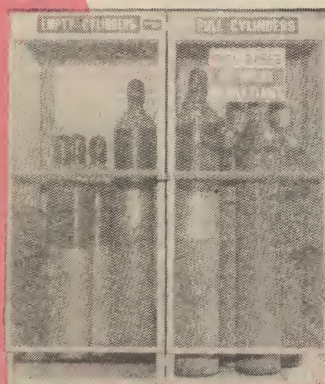

## GAS CYLINDER STORAGE CABINETS

*Protect your fuel cylinders*

*from unauthorized handling!*

Tamper-proof padlock hasp and drop hinges. Back panels are reinforced against slamming of cylinders. Wall panels 18 gauge expanded metal with 1/2" openings, roof 18 gauge steel. Angle iron frame with provisions for bolting to floor. Finished with rust inhibited paint.

- Meets OSHA Requirements
- Meets N.F.P.A. Standards #58-79
- Sets Up In Minutes With Simple Hand Tools

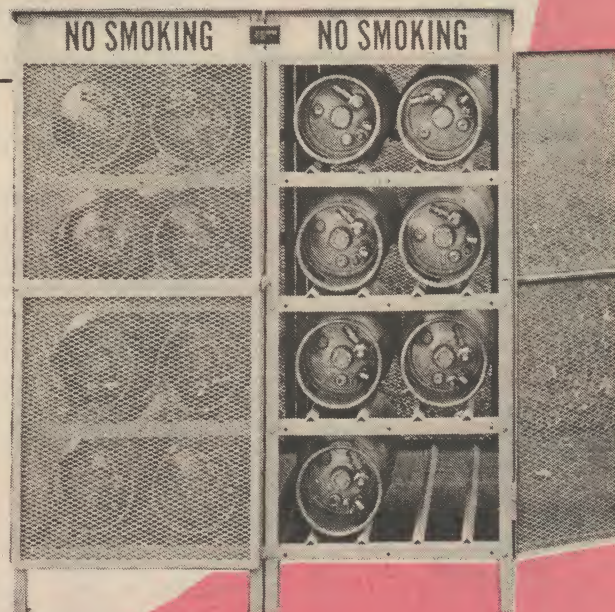

Model No. 386201 **\$615.00**

Stores vertically assorted cylinders up to 200 lbs. each. 60" W x 38" D x 70" H.

"Gaseous Fuels" sign will be supplied unless "oxygen" sign is specified.

**AS LOW AS  
\$384.00**

Model No.	Cylinder Capacity	W X D X H	Price
386100	4	30" x 38" x 41"	<b>\$384.00</b>
386102	8	30" x 38" x 70"	<b>433.00</b>
386104	12	42" x 38" x 70"	<b>470.00</b>
386106	16	54" x 38" x 70"	<b>615.00</b>

# Compliance Signs Help Meet OSHA Specifications

Implement a Common Sense Safety Program with the Use of Low-Cost Signs

STANDARD SIZE: 10" x 14" ... OF HEAVY-DUTY .062 (1/16") ... PERMANENT ... PLATE GLASS THICK ... HIGH IMPACT PLASTIC ... RESISTANT TO RUST, WEATHERING, TEARING, FADING, DENTING, CHIPPING, FLAKING, TEMPERATURE, CHEMICALS, ELECTRICAL CONDUCTIVITY, MAGNETISM AND RADIATION. NO SHARP EDGES OR CORNERS. PRE-DRILLED FOR MOUNTING OR MOVING.

### Roller type LINE MARKER

SAVE...make your own parking and safety lines with this multi-purpose marker. Features: multiple feed roller application. Quality & speed never before possible. Gravity feeds paint onto long-life roller to make smooth, sharp lines on any surface. One-handed operation makes straight, curved or continuous lines using any conventional paint. Paint cannot spill. Light-weight, easy-to-clean. Full guarantee.

Model No.	Capacity	Price
222721*	¾ gal.	\$125.60
222723	¾ gal.	145.75
222725	1½ gal.	190.25
222727	2½ gal.	215.75
222729	5 gal.	250.00
222732 conversion kit for 2" line		\$ 11.00
222734 conversion kit for 4" line		11.00

\*without rear wheels

**PARKING  
LOT  
NEEDS**

Furnished with 3" wide line roller unless 2" or 4" wide is specified. At no additional cost

#### THE MARKING MACHINE FOR EVERY INDOOR OR OUTDOOR REQUIREMENT

- **SIMPLE TO OPERATE**—one-man, one-hand operation—stays on track with minimum of effort and direction.
- **NON-CLOGGING... NO MESSY CLEAN-UP**—just drop in the aerosol cans and press the trigger.
- **VERSATILE**—Makes straight or curved, continuous or skip lines at walking speed.
- **NEW LONGER LASTING AEROSOLS**—one case of paint will stripe a line 3" wide and approximately 2400 feet long, depending upon surface conditions.

Model No.

366840	Line Striper	<b>\$99.95</b>
366902	1 Case (12-18 oz. cans) yellow paint	49.00
366904	1 Case (12-18 oz. cans) white paint	49.00

Adjustable stripe width 3"-6"

**New easy  
way with  
aerosols**

**LINE  
STRIPER**

Comply with  
OSHA  
Section 1910.22

## PARKING LOT CURBS

**Hi tensile-shock resisting steel**

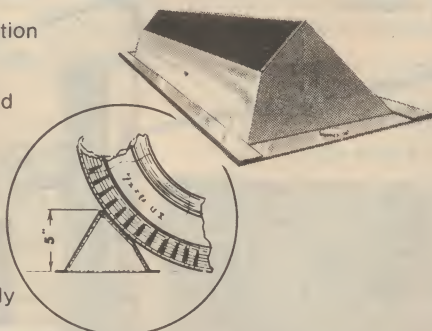

- Easy one man installation
- Maintenance-free epoxy finish
- Drive anchors included

Model No. 360800

50 & up  
**\$16.75** each

10-50  
**\$19.50** each

Sold in carton  
quantity of 10 curbs only

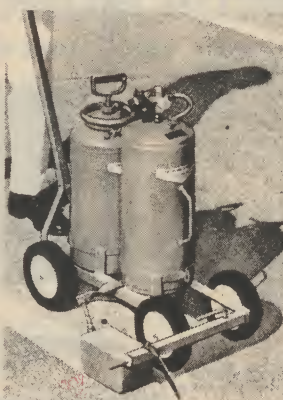

Designed and engineered in hi-tensile ultra shock resistant steel for sure stopping as well as functional beauty. Tests have proven that a 5" high curb with a drive angle of 48 degrees is almost impossible to climb. These curbs will take the impact of the heaviest passenger cars without deforming. Two 12" long by ½" diameter galvanized threaded sure-lok pins make installation fast and fool proof, insures permanent grip. Furnished in two coat Safety Yellow Melemin epoxy. Size 77"Lx5"Hx8½"W.

**Spray type**

### LINE MARKER

**Easy to use... anyone can operate**

368902

- **FAST OPERATING**—Stripe as fast as a man can walk.
- **GUIDE LINE POINTER**—Makes it easy to run straight lines every time.
- **OFF-SET SPRAY BOX**—Allows 4" striping next to curbs, walls.
- **RUGGED, ALL-STEEL CHASSIS**—With long wheel base for true, straight running.
- **HEAVY DUTY 3½ GALLON PAINT TANK**—Minimum of 1200 linear feet of striping.
- **SPRAY TRIGGER**—Mounted on the handle, starts and stops the paint spray instantly.
- **CLEANS UP IN MINUTES**—Operates with minimum maintenance.

OVER 25 YEARS  
OF SERVICE  
**ORDER  
TODAY**

Model No. 368900—A few strokes on the air pump will build sufficient pressure to paint approximately 600 linear feet of striping. Pressure gauge shows exact pressure in tank at all times. **\$224.20**

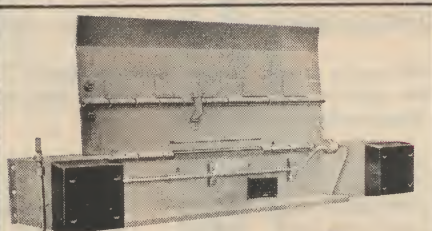

368900

Model No. 368902—Same as Model No. 368900 except has air pressure tank. 110 lbs. of air pressure will run out two full tanks of paint. Charge the pressure tank with an air compressor, just like you would fill the tire on your car. Has safety relief valve, gauges and pressure regulator for selecting the exact operating pressure. Hand pump in paint tank can be used in emergency **\$363.50**

## DOCK LEVELERS

**Self contained  
No pit required.**

## EDGE-OF-DOCK LEVELER

**Attaches to steel nosing  
of your existing dock...  
no concrete work necessary**

Lip automatically locks when raised and automatically releases and returns to stored position when truck pulls out. Supplied with two 12" x 13" molded rubber bumpers and reinforced bumper mounting blocks.

- 6" ± Operating Range
- No Pit Required
- Only Three Moving Parts- Virtually Maintenance Free
- High Strength Safety Plate
- Torsion Assist Adjustment
- Heavy Duty Hinges
- Full 16" x 66" Lip Gives 12½" Of Usable Lip Projection, Overall width - 100"
- Meets OSHA Requirements

Model No. Capacity Price  
454200 20,000 lbs.

**\$423.00**

## ELEVATING DOCKS Loading docks too high? Too low? No dock at all?

**Solve today's cargo handling problems...fast, safe, stable**

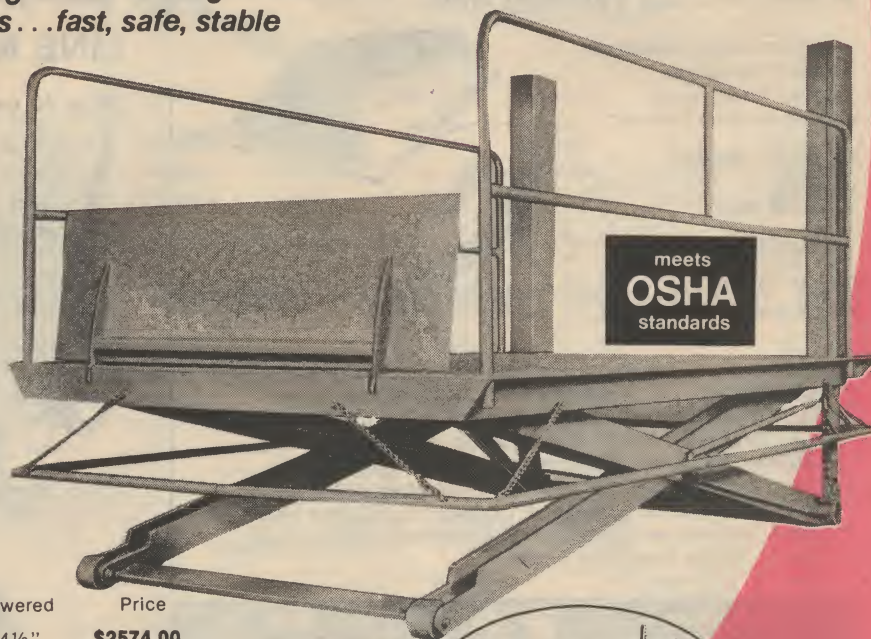

Fast material handling for medium size lift trucks or pallet trucks. Can be installed in a permanent pit, or through use of a simple dolly, moved to wherever needed swiftly and easily.

All welded steel structure and scissor assembly. Maintenance is virtually eliminated with self-lubricating bearings, bushings and heavy duty lift cylinders. 110 or 220/1/60\* 1½ H.P. motor; remote power pack; 8 ft. hydraulic hose and power cord, less plug (requires 20 Amp service). 18" L x 60" W piano-hinged lip on rolling end.

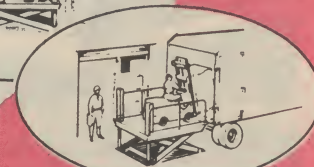

- Push button control on 8 ft. cord...stop in any position
- Checker deck and lip ensure safe operation
- Safety indicator bars on 4 sides—warns if feet are in way of lowering platform
- 42" high removable guard rails
- Safety striping on 4 sides.

Clearance between posts deduct 18" from width  
Approx. lifting speed-4 FPM

\*220 v will be shipped unless 110 v is specified.

meets  
**OSHA**  
standards

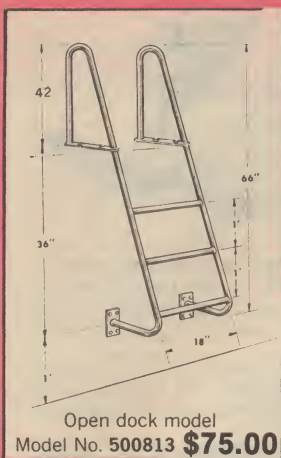

Elevating dock can be furnished portable, complete with rear dolly.

## DOCK LADDERS

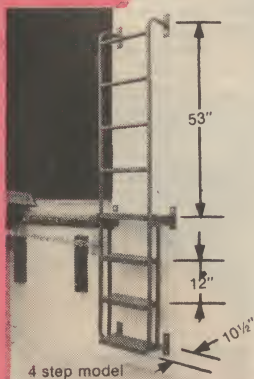

*For accident-free access*

- High-strength welded steel construction.
- Quickly and easily installed with fasteners furnished for masonry walls.
- Safety treads are 7" deep and 16" wide between handrails, overall width 22½"
- Painted safety orange.

Designed especially to be mounted beside truck loading doors—ladder provides safe access without obstructing the door opening.

- Set top tread level with floor being served. Grab rungs continue four feet above floor for safety.

Model number	Number steps	Price
500802	2	\$78.00
500804	3	\$84.00

500810	6	\$102.00

## STA-PUT® WHEEL CHOCKS

*Eliminate loading dock accidents*

- Meets OSHA and DOT requirements
- Ice and snow won't pack under chock
- Positive grip on any surface

Protect life and property. Extra heavy duty patented construction assures you of positive chocking. Unique construction uses weight of vehicle as locking brake to prevent rolling. 9" H x 6½" W x 15" L.

Model No. 430108 Wall type holder for chock- **\$15.00** pair

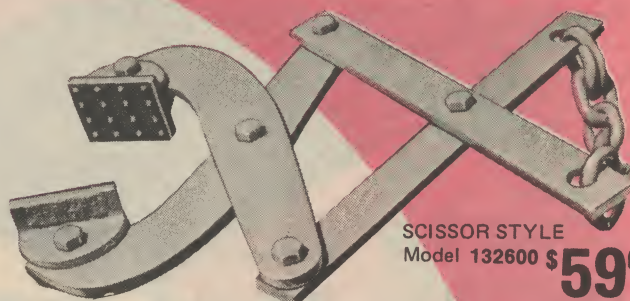

Model No. 430100  
**\$36.30** Pair

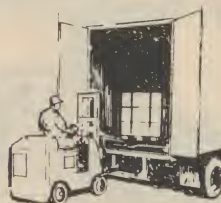

## PALLET GRABBER

*Safe, durable... a real time and labor saver*

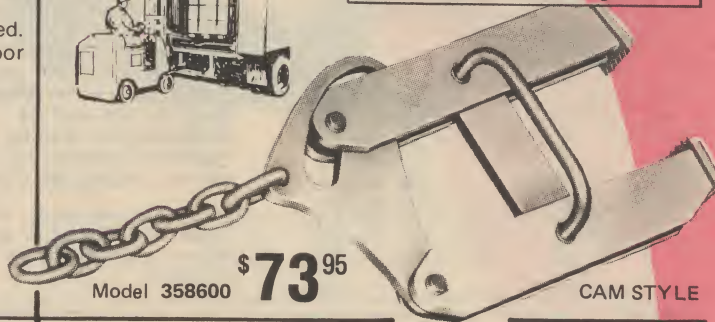

Pull loaded pallets, slide heavy crates, etc., to edge of dock or truck, so it can be picked up with forklift. Variable grip and automatic release.

SCISSOR STYLE  
Model 132600 **\$59.00**

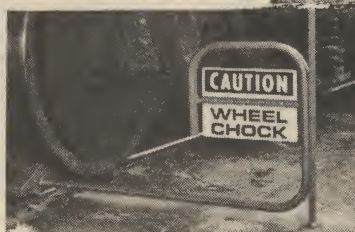

Pulling chain with hooks on both ends  
Model 501920 20 ft. long **\$26.95**  
Model 501922 40 ft. long **\$1.80**

Model 358600 **\$73.95**

CAM STYLE

## Adjustable! RAILROAD WHEEL CHOCK

**Adjustable to 14" high**

Provide safe and effective blocking of all rolling stock. Has rail biting tool steel spurs. Instantly attached and removed without tools. Yellow indicator flag extends beyond side of car for visibility at a distance.

**For Both Flush and Exposed Rails!**

Model No. 132100  
**ONLY \$49.75**

## NEW! WHEEL CHOCKS

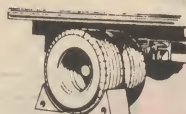

*Safe, tough, lightweight Urethane*

The wheel chock for holding trucks, trailers, aircraft or passenger cars with ease. Use anytime or anywhere loads need to be blocked.

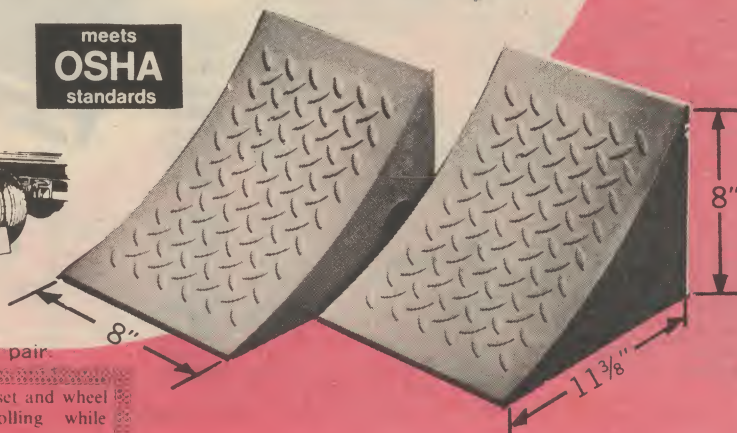

Protect against runaway vehicle accidents with these amazing new chocks made from a miracle urethane elastomer.

Model No. 117100 (6+ pair) **\$29.95** per pair  
(1-5 pair) **\$31.95** per pair

Model No. 500050- 10' long chain with attaching ring **\$15.65** pair

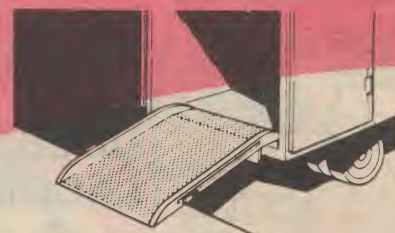

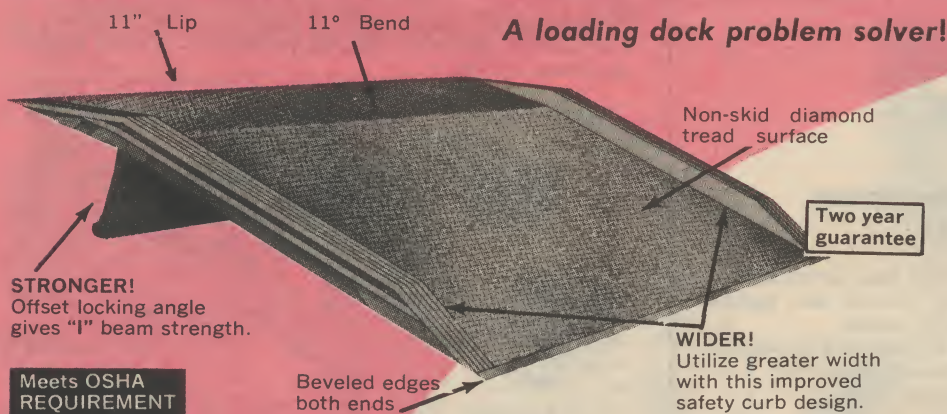

meets  
**OSHA**  
standards

OSHA requirements. "the brakes of highway trucks shall be set and wheel chocks placed under the rear wheels to prevent trucks from rolling while they are boarded with powered industrial trucks."

# ALUMINUM DOCK BOARD

**A loading dock problem solver!**

## Easy steps in selecting your dockboard

**Step 1—CAPACITY** is determined by taking 80% of the combined weight of your maximum pallet load and your fork lift truck.

**Step 2—WIDTH** should be 12" greater than lift truck or load. The most popular width is 60". Us able width is 4" less than overall width.

**Step 3—HEIGHT DIFFERENTIAL** is determined by measuring the difference in height between the top of your loading dock and the bed of the highest or lowest truck. The same dockboard can be used for trucks higher or lower than your loading dock, as long as truck falls within the same height difference (above or below dock).

**Step 4—LENGTH** of board is determined by consulting chart below, so as to give proper underclearance required by fork or pallet truck. As a general rule, the following are maximum recommended angle of operation:

Straddle Trucks	3°
Pallet Jack, walkie or electric	7°
Electric fork truck	8°
Gas fork truck	11°

Meets OSHA REQUIREMENT 1910.30 (A)

Angle of operation (see step 4)	Recommended board length
3°	7° 8° 11°
Height Differential (see step 3)	
2"	48" 30" 36" 36"
3"	66" 36" 36" 36"
4"	42" 42" 36"
5"	54" 48" 36"
6"	60" 54" 42"
7"	66" 60" 48"
8"	72" 66" 54"
9"	72" 60"
10"	66"
11"	66"
12"	72"

**Aluminum construction.** Light weight, maintenance-free, and retains attractive appearance. **Modern new curb design.** Curb angle protects truck tires—prevents run-off, provides full length hand grip. Curb is painted bright traffic yellow for operator safety.

**Safety stop understructure.** Offset for closer truck-to-dock parking.

**Eliminate your loading bottlenecks.** For an immediate solution to your dock problems, order a custom constructed dockboard today!

\* A 11 degree bend will be furnished unless height differential is specified (see step 3) in which case the proper degree of bend will be furnished.

AS LOW AS  
**\$185.00**

Steel truck ramps provide for one man operation with safety

- Crowned to compensate for height differences
- Lifting chains for handling with equipment
- Safety side rails
- Tread pattern surface plate with beveled edges
- Locking brace between dock and trucks
- Painted dark green with safety yellow side rails
- Speeds up loading operations & cuts down labor costs
- Prevents accidents

To determine height differential, measure the difference in height between the top of your loading dock and the bed of your truck. The same dock board can be used for trucks higher or lower than your loading dock, as long as trucks fall within the same height difference (above or below dock)

For 3" height difference + use 36" long dock board  
For 5" height difference + use 48" long dock board  
For 7" height difference + use 60" long dock board  
For 9" height difference + use 72" long dock board  
NOTE: For ease of operation overall width of dock board should be 12" wider than lift truck and load

In use—truck lower than dock level

In use—truck higher than dock level

## ALUMINUM DOCK PLATE

*Lightweight... cut loading costs and hazards —  
Now designed to meet  
OSHA Spec. No. 1910.30 (A)*

Reduce your truck loading costs. Safety legs prevent "out of position" hazards. Light weight minimizes lifting strains. Beveled edges and crowned construction results in smooth entry and exit.

Easy to  
Grip Handle

## DOCK PLATES WHEEL RISERS WALK RAMPS

These heavy duty ramps make it easy to bring a truck or trailer into your dock at a smooth working level, gives you faster loading and unloading. Constructed of rugged light weight aluminum with non-skid safety tread.

## TRUCK DOCK SHELTERS

### "EXPANDER - SEAL"

Why you need up-to-date loading dock protection

- Protect merchandise from damage due to exposure to the elements.
- Prevent work slow-downs and absenteeism due to reluctance to work unprotected in bad weather.
- Prevent accidents caused by wet or icy floors.
- Prevent high insurance costs and penalties resulting from accidents.

Vehicle contact with shelter causes panels to open up completely. Spring-like action of vicryl lining insures close conformation

of top and side sealing panels to truck. Safety X-braces and rubber bumpers form part of new expander-seal framework. Although basically rigid, framework is designed to yield if accidentally struck—thereby avoiding serious damage.

Standards are designed on 8'0" maximum permissible width of highway transports (8'4" with doors opened flat against sides) and 3'9" minimum platform height. Shelter is designed to accommodate vehicle heights from 11'6" to 13'6"

### SPECIFICATIONS

#### TRUCK ACTUATED

1. Seal Panels-.080 vicryl pvc acrylic alloy covered inside and out with ultra-heavy-duty nylon-reinforced, 22oz. vinyl impregnated fabric. Seams electronically heat sealed.
2. Cover, Shelter-single thickness 18 oz. heavy-duty nylon, vinyl impregnated.
3. Sealing strips- $\frac{1}{8}$ " $\times$ 1 $\frac{1}{2}$ " aluminum flat bar. Secures cover to mounting frame.
4. Sealing Angle- $\frac{1}{8}$ " $\times$ 1" $\times$ 2" aluminum angle. Secures cover to front frame.
5. Front Frame-4" $\times$ 1" profile steel channel. Plated rustproof finish.
6. Extension Arms-1 $\frac{1}{2}$ " $\times$ 1 $\frac{1}{2}$ " square steel tubing. Plated rustproof finish.
7. Slide Tube-1 $\frac{3}{8}$ " diameter steel tubing. Plated rustproof finish.
8. Slide Bearing-2" diameter $\times$ 1 $\frac{1}{4}$ " long bearing with oilite bushing. Plated rustproof finish.
9. Slide Collar-1 $\frac{1}{2}$ " I.D.-2" O.D. $\times$  $\frac{1}{4}$ " thick. Restricts spring travel.
10. Safety Springs-tempered steel. Designed to hold frame rigid but yield under accidental pressure to avoid damage.
11. Mounting Frame-4" $\times$ 1" formed steel channel with rust proof finish.
12. Guide Stripe-6" yellow stripe Guide for spotting trucks.
13. Two  $\frac{3}{8}$ " thick formed steel protectors projecting 12" from wall act as limit stops.

## TRAILER STABILIZING JACKS

A "must" for loading and unloading trailers safely

### DELUXE MODEL

- 8" diameter wheels
- Height adjustable from 40" to 51"
- Base: 18" square with reinforcing ribs and braces
- Ratchet: Heavy duty malleable iron.
- Accommodates up to 9° tilt off level
- All welded steel construction
- Painted eye-catching Alert Orange

Model No. Description Price  
132050 3 $\frac{1}{8}$ " Cap **\$210.00 ea.**

PLUS 8% F.E. TAX

- Optional 8" CAP - distributes load over larger area, slips over standard 3 $\frac{1}{8}$ " cap. Held in place by hardened socket head screws.

132052 8" dia. Cap **\$20.00 ea.**  
PLUS 8% F.E. TAX

meets  
**OSHA**  
standards

LIFTING CAPACITY 50,000#  
100% SAFETY FACTOR

- Prevents collapse of trailer landing gear
- Levels front and rear of trailers
- Prevents tipping of trailers

Use jacks singly or in pairs.

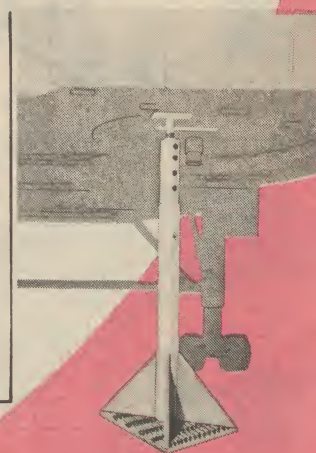

### EASY TO POSITION

- Jack handle in stored position serves as steering lever

- Balances and maneuvers easily on ball bearing wheels.

### EASY TO OPERATE

- Ratchet head and 40" long handle make it possible for worker to stand upright while operating jack.

### ECONOMY MODEL

20,000 lbs. capacity. Light-weight - 31 lbs. Adjustable 36"-48". Finished in bright yellow.

Model No. 244236 **\$75.00 ea.**

## LOADING DOCK DOOR SEALS

### Save Fuel and Heating Costs

- Protect merchandise from damage due to exposure to the elements.
- Prevent slow-downs and absenteeism due to reluctance to work unprotected in bad weather.
- Prevent high insurance costs and penalties resulting from accidents.

• No sewn-on stripes to rip off; no paint to chip or wear.

You spend good money to heat or air condition your plant. Why pour it out of wide-open doors at your loading dock?

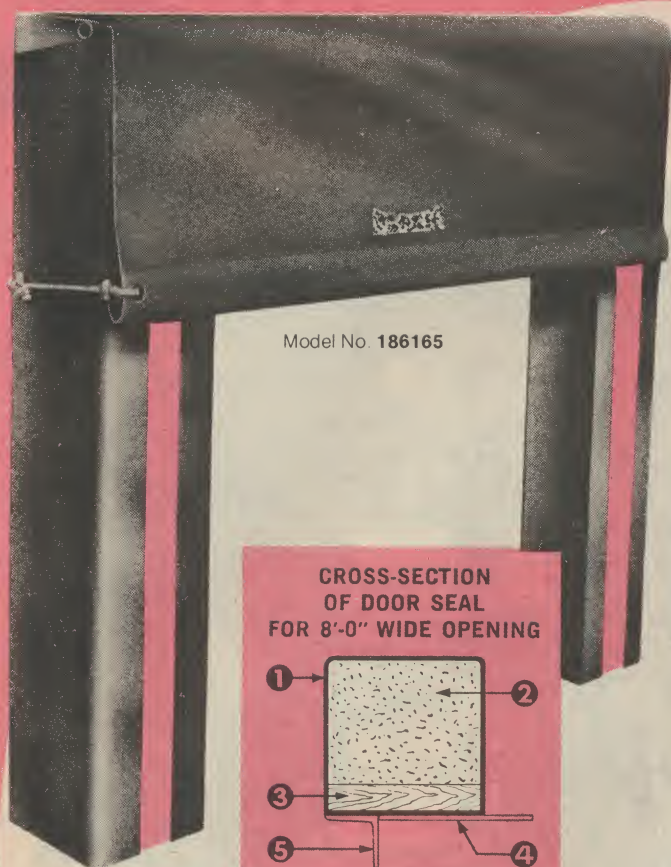

Seal in processed air, comfort and profits. Seal out dirt, weather and contamination. Door seals make trucks and trailers temporary extensions to your plant, with safety, comfort and efficiency.

Designed for truck and trailer loading docks with no projecting platforms. The vehicle, with rear doors open, backs up against door seal, guided by the vertical yellow stripes, and makes a squeeze fit that forms a perfect seal. Pads are 12" x 12" including 2" wood backing; length as required. For 8'0" wide openings angle brackets are provided to reduce opening width to 7'4".

Both Models Give These Outstanding Features:

1. Ultra heavy-duty Nylon-reinforced vinyl impregnated 22-oz. fabric. Grab tensil 500/400 Lbs.; tongue tear 150/150 Lbs.; adhesion 10 Lbs. minimum. This ultra-weight, ultra-strength permanently waterproof material requires no additional protection.
2. Dense polyfoam filler, chemically welded to a seasoned wood frame encased by vinyl cover.
3. 2" thick weatherproofed seasoned wood frame.
4. 4" wide x 10" long 11 ga. steel brackets, enamel-coated.
5. 4" x 4" x 1/4" x 6" long formed steel angle brackets, enamel-coated.

Model No. 186161

CROSS-SECTION  
OF DOOR SEAL  
FOR 8'-0" WIDE OPENING

Model No. 186165 — CURTAIN TYPE

**\$230.00**

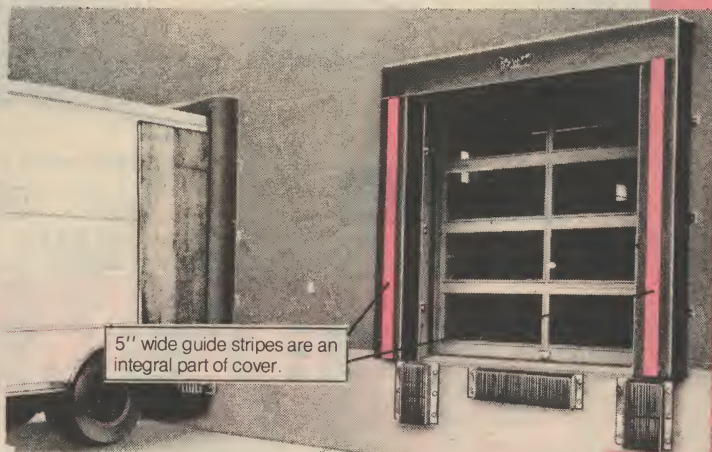

For door openings 8' wide to 10' high, accommodates trucks 11'6" to 13'6" high. Weighted drop curtain forms the head seal and drapes over face of vertical foam pads to seal variety of truck heights. Curtain is secured in position against the side pads by means of elastic ropes. Vertical foam pads accommodate opening heights to 10'0".

Model No. 186161 — STANDARD TYPE

**\$271.00**

Foam pads on three sides. Recommended door opening: 7'4" to 8'0" wide x 8'0" high.

**SPECIFY HEIGHT AND WIDTH OF DOOR  
OPENING (DOCK BUMPERS NOT INCLUDED —  
SHOULD BE USED TO PROTECT DOCK SEAL)**

## HEAVY DUTY DOCK BUMPERS

*Eliminate damage to your shipping dock.*

Constructed of fabric impregnated rubber pads compressed to give maximum strength and wear. 1/4" angle iron end plates pre-drilled for quick installation.

Allow 12" between each bumper for dependable protection.

Absorbs over 80% of impact force.

# FLEXIBLE RUBBER IMPACT DOORS

Safe, fast, strong, self-closing for openings up to 10'0"

MAIL YOUR ORDER TODAY

At these new low prices, every plant, every warehouse, every loading dock can have all the traffic doors it needs for up-to-date, cost-cutting, non-stop movement of goods and material...with standard of safety impossible to achieve by any other method.

**Notes:** For in-between sizes, use price for next largest size.

\*When ordering, always state "one pair of doors to fit" and give exact opening size.

If single panel is required, use price for double width, divide by two, and state "single panel."

Double-acting, self-closing impact doors allow plant traffic to move freely, safely and quickly between different departments...or from inside areas to outside loading docks.

## INSTALLATION

Doors are made for easy installation in 6" minimum channel jambs for openings up to 10'0" x 10'. Openings must be plumb and square. Installation instructions are supplied with every door.

Rugged hardware—heavy steel roll formed for greater rigidity, cam gravity self lubricating hinges.

Large vision area of tough, transparent 1/2" thick Vitran.

Doors 6'—0" and wider, fitted with disk type magnets.

Vertical frames have vinyl seals to control noise, dust and temperature.

# DOCK LIGHTS

Heavy duty, shock proof

MEETS OSHA REQUIREMENTS

Shipping and receiving dock areas. Loading operation equipment is subjected to rough usage. Loading lights are no exception. Dock lights are designed to withstand such damage... especially bulb damage.

- Four-way, shock-absorbing mount cushions bulb...extends bulb life to the limit.
- Heaviest gauge metal of any dock light made...withstands rough usage.
- Independent switch pre-wired to box or arm, no hanging cords.
- Safe to use...does away with awkward, dangerous, temporary hook-ups.
- Quickly pay for themselves...in faster, safer and more efficient loading and unloading.
- Bulbs not included.

Model No.	Description	Price
274302	single arm—24"	\$63.95
274304	double arm—40"	74.95
274306	double arm—60"	93.95

BUY DIRECT FROM GLOBAL AND SAVE!

# IMPACT TRAFFIC DOORS

SELF-CLOSING / DOUBLE-ACTING SHOCK-ABSORBING

**A high-visibility, wide-vision, see through traffic door that will absorb heavy shocks**

- Integral shock absorbing bumper design protects doors and loads from damage.
- Vista Vision double panel LEXAN Shatterproof insulating windows give a clear, unobstructed view for speedier traffic and greater safety.
- Foam insulated panels and compressible seals at top, sides and center for temperature control.

## SUBSTANTIAL SAVINGS

Installation of doors result in many direct and indirect savings:

- Save on heat, refrigeration, air conditioning.
- Prevent accidents.
- Avoid damage to equipment and merchandise.
- Save on door maintenance.
- Control temperature and humidity for production efficiency.
- Expedite handling and shipping.
- Reduce labor trouble by sealing off drafts, dust, fumes, etc.

## EASY MAINTENANCE

Specially designed hardware for impact traffic doors is extra-heavy-duty, long wearing and rarely needs replacement... far outlasts conventional spring hinges. Self-lubricating oilite V-cam hinge bearings need no attention. Cam-follower needle roller bearings are permanently self-lubricating and sealed. Door panels are of high-impact, abrasion-resistant Vicryl—a PVC acrylic alloy of exceptional toughness and durability. Color is impermeable, never needs repainting or replacing. Doors are washable, easy to keep clean and fresh.

Notes: For in-between sizes, use price for next largest size.

\*When ordering, always state "one pair of doors to fit" and give the exact opening size.

If single panel is required, use price for double width, divide by two, and state "single panel."

Colorful, abrasion resistant Vicryl door panels

Vista Vision Lexan window

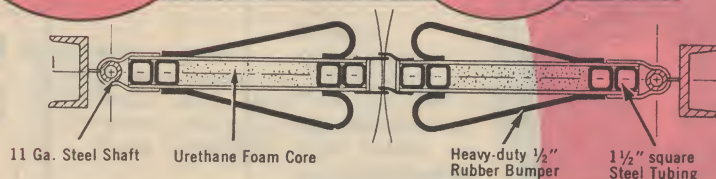

1½" - 14" square tube steel frames; clamp panel securely for accurate opening and closing.

Vinyl Seals

Heavy-duty ½" rubber bumper

Heavy-duty, self-closing, double-acting, pivot hardware—will far outlast conventional spring hinges.

14-Ga. steel shaft

Impact traffic doors are opened by pallet, truck or load contacting the flexible, shock-absorbing rubber bumpers. If a load is unstable the danger of swipe-off is minimized because with the bumper contact is made by the lower, central portion of the load, the most stable portion.

## "SWING-A-WAY" LOADING LIGHT

### Spring suspended - Swivel mounted

Cut relamping costs. Overhead Mounted Fixture will bend and swivel at the slightest impact. Returns to original position. Universal mounting bracket available for overhead doors that open inside.

- UL LISTED "IMPACT RESISTANT FIXTURE"
- LAMP FACE RECESSED TO PREVENT BREAKAGE
- LIGHTHEAD ADJUSTS TO POSITION
- COMPLETE WITH 3' WIRE CORD FOR ATTACHMENT TO JUNCTION BOX. (LAMP NOT INCLUDED)

meets

## CAPACITY TESTED AUTOMATIC LIFTING CLAMP

Lift plates, beams, weldments, assemblies from any position, horizontal or vertical. Heavier the load, the tighter the grip, even under swinging loads.

- Drop forged and heat treated
- 5 to 1 safety factor
- Completely enclosed mechanism
- Case-hardened tool steel jaws

Model No.	Cap. Tons	Grip	A"	B"	C"	D"	Wt.	Price
716100	1 1/2	0-5/8"	10 3/4	2 1/4	1 3/4	1	4	<b>\$ 57.20</b>

704110	10,000	12	24"	<b>1075.00</b>

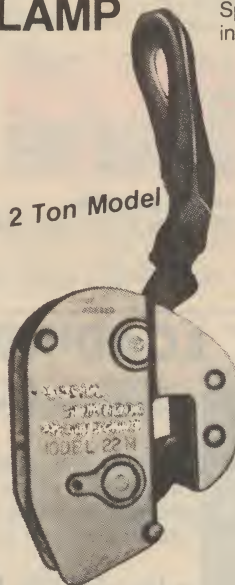

Perfect for use with our low cost fork lift hook. See page 104

## LOCKING CLAMP

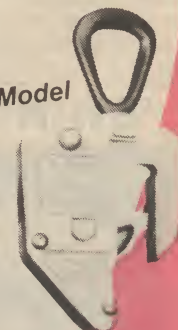

Locks open or closed with easy to operate lever. Spring loaded cam trips automatically when lifting from horizontal to vertical.

- Completely enclosed mechanism
- Wide face pad for larger gripping area
- Sliding pad permits easy release
- 5 to 1 safety factor
- Minimum maintenance due to fewer parts

# ELECTRIC HOISTS

This "Low Headroom" precision made electric hoist is dependable, safe, low in cost and up-keep, and above all, fast and efficient. No matter what your application: Suspension, Monorail, Jib Crane, Overhead Traveling Crane or Gantry Crane; these electric hoists can do a better job for you.

## 4 STAR FEATURES:

- ★ Dust proof frames made entirely of steel plate
- ★ Heavy duty  $\frac{5}{16}$ " hi-tensile chain
- ★ Low headroom
- ★ Easy operation to insure efficiency

## ADDITIONAL LIFTING HEIGHTS AVAILABLE

## JIBBOOM - CRANE

### MOVE BULKY LOADS YOUR FORK LIFT ALONE CAN'T HANDLE

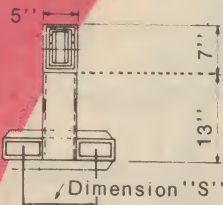

4,000 and 6,000 Lb. Cap.

- Safety chain welded to boom has grab hook for anchoring jibboom to truck mast.
- Two swivel hoisting hooks.
- Spring-loaded steel pin locks boom securely in any of 10 positions.
- 5 intermediate support points under boom for added support of long loads.

Converts your fork lift instantly...unlimited uses. Simply slip forks of your counterbalanced lift truck into fork pockets of jibboom and attach safety hook to truckmast. Verify load center capacity of your fork lift truck.

## PORTABLE FLOOR CRANE

Goes  
anywhere!

Lifts hydraulically  
1500 LBS. from 39" to 96"H.

Knocks down and sets up  
in 60 seconds for easy storage

Lifts 1,500 Lbs. to 8 feet high. Easily dismantles into six pieces for easy storage. 40 1/2" W. O.D., 36" W. I.D. 56 1/2" long boom. 39" lowered height.

- By-pass valve prevents overloading and damage
- Slow release valve for positive control when lowering load
- 4,000 Lb. high test chain
- 4" casters

Model No. **\$425.00**  
414100

## SELF - RAISING FLOOR CRANE

### 1000-3000 LB. CAPACITIES

For efficient handling of bulky, awkward loads. Improved design provides low cost combined with utility.

- Completely self-contained hydraulic system with single-action, manual pump.
- Automatic safety relief valve prevents overloading
- Swivel hook with safety latch
- Roller bearing wheels

## HOW TO ORDER

1. Select the best type sling for the application.

2. Determine the required sling capacity. Catalog rated capacities for each type hitch are specified.

3. Determine bearing to bearing length to safely lift load.

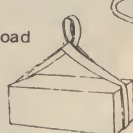

bearing to bearing sling length

4. Order by sling stock number and specify length in feet.

Sling-to-load angle

Choker hitch

Rated capacities are given with a 90° sling-to-load angle for a basket hitch and a 30° sling-to-load angle for a choker hitch.

**ENDLESS TYPE** — For all-purpose lifting. Load contact and lifting points change with every lift, giving maximum wear for better economy and safety.

## MODULAR BAR STORAGE RACKS

**Stacks 8 to 10 high** Patent No. 2801752

Efficient, low-cost storage rack takes only minutes for one man to set up. Sturdy, yet light-weight and easy to handle, they provide a highly flexible storage system for all types of materials. Installations are expandable in width, height and length. They are readily shifted to meet changing storage requirements.

Removal is fast and convenient. Cut-off lengths can be returned to storage and quickly identified next time needed.

Simply stack to the depth, height and width you require for space-saving economical storage. Heavy-duty welded steel construction.

## VERTICAL SHEET STORAGE RACK

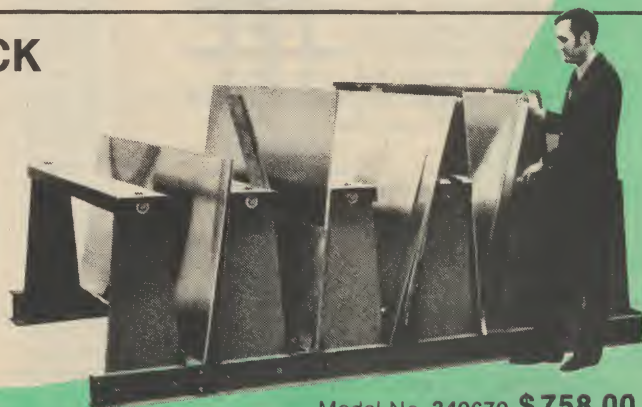

Provides vertical access to sheet, plate and flat panels, offers an easily assembled structure for organizing awkward-to-handle materials. Time-consuming re-stacking of horizontal bundles and piles is eliminated. Random access to inventory becomes a rapid operation with all items fully visible and easily handled.

One standard size conveniently and neatly stores sheets ranging 8 to 12 feet in length and 3 to 6 feet in width. Five 6 inch angled compartments rated at 6,000 lbs. per opening. Can be assembled into continuous rows of desired length.

SIZE—120" L x 84" W x 36" H FINISH—GRAY ENAMEL

FLOOR PAN - 5¼" Wide support materials shorter than the 84" base channel span, drops in place in any compartment, locks in place.

Model No. 340680 — \$26.20

Model No. 340670 \$758.00

## VERTICAL BAR RACK

The vertical bar rack keeps a limited supply of long parts close to the job. Long pieces stack vertically; shorter pieces are kept in the three pan shelves spaced at 21" intervals. Finished in gray enamel. 36" wide, 24" deep (bottom), 84" high. Bottom pan is 36" wide. 6" deep, with 1½" high flange.

712990  
**\$88.50**

## PORTABLE BAR STORAGE RACKS

No. 952200

**\$25.40**

**Solves your storage problems.**

- Carries heavy loads evenly distributed
- Saves time, floor space, money
- Stacks four high
- Built in stops prevent upright spread
- Heavy welded steel construction
- Stores bars, channel, angle, pipe, flats, etc.

Outside dimension

(A) 25" wide

(B) 17½" high

(C) 4" wide bottom channel

Inside dimensions

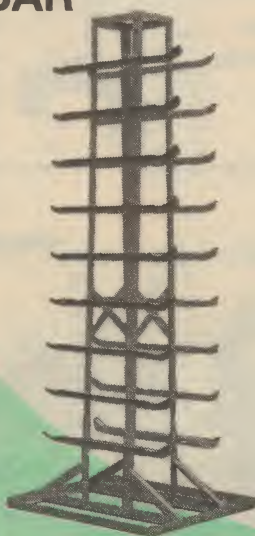

(D) 15½" wide bottom

(E) 21" wide top

(F) 15½" high upright

## HORIZONTAL BAR STOCK RACK

All welded steel bar rack ruggedly built of angle steel. Perfect for the storage of an assortment of angle, pipe, bars, tubes, etc. Use two of Model 500988 for long lengths up to 20 feet. 9" arms on each side of frame are spaced 6" apart. Base size 30"x30", height 84". Gray enamel finish.

712988

**\$97.15**

## ACCORDION CONVEYOR

*Stretch your dollars....  
completely portable.  
For use on trucks, docks, etc.*

Wheel into place... extend, contract, twist (including "S" bends) or convey around corners. Adjustable height 28" to 42". Supplied with plastic skate wheels or 2" plastic rollers. Rubber swivel casters with foot operated brake. Will handle packages up to 50% wider than conveyor width.

## TELESCOPING GRAVITY CONVEYOR

Ideally suited where space is limited on loading docks, shipping areas, etc. Floating transfer rollers connecting each section provide smooth, uninterrupted flow from beginning to end of fully extended conveyor. Rigid casters allow conveyor to be easily pulled into or pushed out of trailer or shipping doors!

- 1.9" dia. steel rollers on 3" centers
- 4" rigid rubber casters
- Floating transfer rollers
  - Self-aligning sections
  - Rugged construction
  - 10 ga. steel frame

CAPACITY—750 LBS  
PER ROLLER WITH  
3500 LBS MAXIMUM  
DISTRIBUTED LOAD  
OVER 10' LENGTH

### WHAT CONVEYOR TO USE?

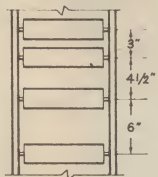

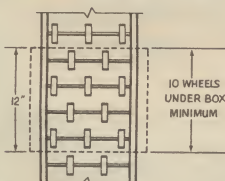

1. Use skate wheel conveyor for items with smooth flat bottom, such as...

2. Use roller conveyor for items with uneven or open bottom, such as...

3. When using skate wheel conveyor, there should be a minimum of 10 wheels under the item.
4. When using roller conveyor, there should be a minimum of 3 rollers under the item.

10 wheels under box minimum

Less than 3 rollers... box tumbles

Best — 3 rollers under box at all times! This determines the roller centers to order.

- For portable set-up use tripod stands, permanent installations use "H" type stands.

- Suggested pitch per foot for gravity conveyors: (These degrees of pitch will vary according to conditions.)

Unit weight (lbs.)	Pitch per foot
50-150	3/8"
12-50	1/2"
7-15	3/4"
3-7	3/4"

### PORTABLE CASTERED SUPPORT

10' long rolling conveyor stand moves your conveyor out of the way when not needed. Conveyor section not included. Height is adjustable 24"-40"

Model No.	Width	Price
158290	12"	\$85.65
158292	18"	85.65
158294	24"	85.65

For use on 1 3/8" or skate wheel conveyor.

### STEEL GUARD RAILS

Adjustable guard rails are used with gravity roller and skate wheel conveyors, straight or curved sections. Attaches easily and is readily adjustable. For 1 3/8"D. and skate wheel conveyors only.

### OPTIONAL EQUIPMENT

- Adjustable Guard Rails—both sides **\$2.10** per foot of conveyor length.
- One Direction Push Button Switch—**\$47.05** up to 1/4 H.P. motor
- Reversing Drum Switch **\$60.95**
- Reversible Magnetic Starter **\$193.75**
- Reversible Push Button Switch For Rev. Mag. Starter **\$31.70**

For efficient assembly line operation, inspection, sorting, packing and shipping. Modular construction for future expansion. Easily assembled from pre-assembled components. All conveyors are pre-tested before shipment.

# BELT CONVEYORS

*Ideal for packaging, assembly & warehouse*

## STANDARD FEATURES

- Belt** - 3 ply woven white cotton furnished unless 2 ply black rubber friction belt is specified.
- Floor supports** - Adjustable 28"-40". Holes for bolting to floor.
- Drive pulley** - 4" diameter crowned and fully lagged with 1" shaft.
- Take-up** - Screw type at tail pulley to provide proper tension.
- Bearings** - Sealed pre-lubricated ball bearing.
- Belt speed** - 65 F.P.M. unless 25-135 constant belt speed is specified (No add'l cost).
- Motor** - 1/3 H.P. - 230/460 V. - 3 Phase - 60 Cycle - ball bearing furnished unless otherwise specified.

Add 1" to belt width for bed width, 12" to length for overall length.  
Ceiling hangers can be supplied in lieu of floor supports at no additional cost.  
Floor supports will be supplied unless otherwise ordered.

Higher vertical sides may be ordered in lieu of 2 1/2" sides, for:  
4"H sides, add **\$4.19** per ft. (both sides)  
6"H sides, add **\$5.11** per ft. (both sides)  
9"H sides, add **\$6.36** per ft. (both sides)  
12"H sides, add **\$8.51** per ft. (both sides)

## 10 DAY FREE TRIAL GUARANTEE

"The item must do the job for which you need it...you have 10 days to check it out...if it isn't completely satisfactory or as represented, you may return it for an immediate and unquestioned credit." That is the unconditional guarantee upon which our steady and substantial growth has been based. If for any reason the material does not measure up to your expectations...if it is not completely adaptable to your needs...if you are not 100% satisfied, return

it unused within 10 days and your only obligation is transportation charges. Please notify us before return, so that we may give you the proper shipping procedure. This guarantee applies to standard catalog items. Special design, custom constructed, factory shipped or cut to size items are excluded. On these, our experience and reputation are your assurance of satisfaction.

"A quarter of a century of customer satisfaction."

## PORTABLE FOLDING "BOOSTER" BELT CONVEYOR

**Self-powered  
raising device**

Model No.	Length	Price
158480	10'	<b>\$1316.00</b>
158482	12'	<b>1403.00</b>
158484	14'	<b>1523.00</b>
158486	16'	<b>1636.00</b>
158488	20'	<b>1839.00</b>
158490	22'	<b>1905.00</b>

- Adjustable infeed height (12" to 32")
- Reversible
- Ruff-top rubber belt (14" wide)
- Bed section folds

One lever control adjusts angle without effort. Desired angle automatically locked by powered screw. Standard equipment—no extra cost.

**Bed**—20" wide. Bed is 4" thick and hinged at half its length on 10 ft. to 16 ft. sizes. 20 and 22 ft. sizes hinged 14 ft. from lower drive pulley.

**Hinges**—to fold bed to shorter length for storage. Screw adjustment insures alignment of bed. Exclusive link ("breathing hinge" feature) prevents damage to belt when folded.

**Incline**—adjustable from 0° to 45° with powered screw raising device. Conveyor motor changes incline angle by moving convenient lever. Safety nut prevents rapid release of bed in case of overloading.

**Base**—welded steel base 28" wide sizes 10 ft. to 16 ft.—33" wide sizes 20 and 22 ft. length.

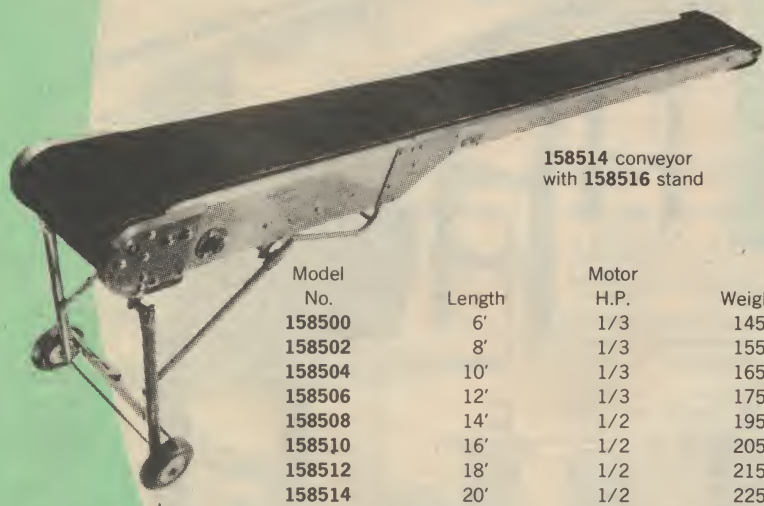

**Casters**—4" dia. steel swivel casters on 10 ft. to 16 ft. sizes—6" dia. on 20 and 22 ft. with corner guards.

**Switch**—electric, drum type, reverse switch with 20 ft. of 3 wire power cord and plug.

**Motor**— $\frac{3}{4}$  H.P. sizes 10 ft. to 16 ft., 1 H.P. sizes 20 and 22 ft.—110/220 volt—single phase—60 cycle—1800 rpm—ball bearing.

**Capacity**—at 65 fpm. 300 lbs. total load—150 lbs. unit load.

## ALUMINUM PORTABLE BELT CONVEYOR

**158514 conveyor  
with 158516 stand**

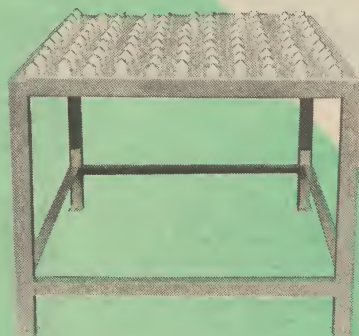

Model No.	Length	Motor H.P.	Weight	Price
158500	6'	1/3	145	<b>\$665.00</b>
158502	8'	1/3	155	<b>718.00</b>
158504	10'	1/3	165	<b>759.00</b>
158506	12'	1/3	175	<b>821.00</b>
158508	14'	1/2	195	<b>912.00</b>
158510	16'	1/2	205	<b>974.00</b>
158512	18'	1/2	215	<b>1040.00</b>
158514	20'	1/2	225	<b>1104.00</b>

Stand with 6" rubber wheels and lock facilitates one man use when conveyor is used on trucks, stairs, mezzanines, etc. Adjustable 17"-36"

Model **158516** **\$52.50**

Easily moves boxes, cases and cartons up inclines. Narrow width fits in stairway to convey from floor to floor. Loading and unloading trucks. Propped on shelves for stacking-order picking.

- Aluminum bed (12" wide)
- Reversible
- Ruff-top belt (10" wide)
- Sealed ball bearings
- Low cost
- Capacity—200 lbs
- Motor—115/230 V—1 phase
- Belt speed—65 F.P.M.

- Overhead drive
- Extra tough belt
- Sealed bearings
- Rolled edge guard rails—3½"H
- 3 ply neoprene E2R9 with 1½"H cleats 12" O.C.
- Speed 65 F.P.M. 300 lb. capacity
- 1/3 H.P. 230/460-3 phase motor.

Add'l for manual push button switch wired to motor with 20' cord and plug

Model No. **158520** **\$65.40**

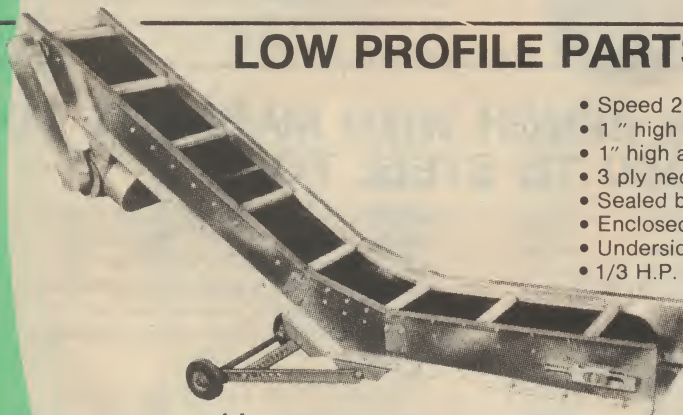

Constant speeds between 25-135 F.P.M. can be had at no additional charge.

## LOW PROFILE PARTS CONVEYOR

- Speed 25 F.P.M.—300 lb. capacity
- 1" high vertical sides above cleat
- 1" high angle cleats
- 3 ply neoprene belt
- Sealed bearings
- Enclosed box construction
- Underside drive
- 1/3 H.P. 230/460 3 phase motor

Can be positioned under punch presses to catch small steel or aluminum stampings, plastic parts, etc. Conveys them quickly up to hopper or drum. Ideal for use with punch presses, plastic injection molding machines, extruding equipment and other machinery.

Add'l for manual push button switch wired to motor with 20' cord and plug.

\*6 1/2" clearance supplied unless specified

- 12ga. steel troughed bed with 1" high sides • 3 ply neoprene friction surface belt • ½ H.P. 230/460V., 3ph. totally enclosed gear-head motor • Start - Stop switch included • Sealed bearings • 65 F.P.M. belt speed furnished unless other constant (25-135 F.P.M.) is specified • Capacity - 100 lbs. distributed live load

## CUSTOMIZE YOUR BENCH WITH THESE ACCESSORIES

ALL BENCHES ARE 34" HIGH  
CONSISTING OF:  
2 LEGS, 1 TOP, 1 STRINGER.

## OPEN TYPE WORK BENCHES

*Global believes a good  
bench makes a good  
workman...better*

If your job calls for heavy duty bench work or a very smooth, shock absorbent surface for precision work or protecting fine instruments, you'll find your bench in this collection. Gray baked-on enamel.

Size LxW	Model No.	Price
48x28	183400	\$75.75
48x34	183402	93.00
60x28	183404	83.55
60x34	183406	90.90
72x28	183408	90.15
72x34	183410	98.40

## STEEL TOP WORK BENCH

*Longest lasting...and solid*

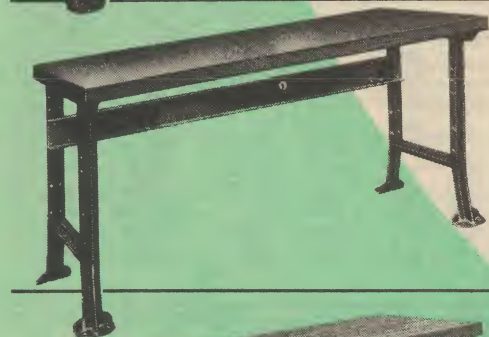

Just the look of this rugged steel bench tells you it is meant for the heaviest duty. The heavy steel top will not crack, splinter, gouge or become oil soaked. Box flanged 13 gauge construction.

Size LxW	Model No.	Price
48x28	183412	\$110.75
48x34	183414	116.00
60x28	183416	123.10
60x34	183418	130.55
72x28	183420	130.85
72x34	183422	139.45

## WORK BENCH WITH MASONITE TOP BONDED TO STEEL TOP

Bonded directly to the 13 gauge steel top with special gripping cement. Masonite top can be used in natural finish or waxed to high gloss for working with highly polished and precision parts. Tough yet resilient, masonite absorbs the shock of a dropped instrument, preventing damage to the tool.

Size LxW	Model No.	Price
60x30	183440	\$112.95
60x36	183442	123.70
72x30	183444	124.25
72x36	183446	137.55

## "TEPCORE" TOP BENCH

Kiln dried wood core. Surfaced on both sides with high density, tempered pressed wood panels. Permanently bonded. Non-conductive. Warp and splinter free.

Size LxW	Model No.	Price
60x28	183428	\$156.75
60x34	183430	185.20
72x28	183432	180.80
72x34	183434	213.00

## WORK BENCH WITH LAMINATED EDGE GRAIN MAPLE TOP

*A good workman's dream bench*

A bench for craftsmen, yet solidly rugged for heavy duty too. Laminated edge grain maple top is kiln dried, electronically glued. Sanded to 1 1/4" thickness. You can't buy a better all-purpose bench.

ASK US TO QUOTE ON YOUR SPECIAL REQUIREMENTS

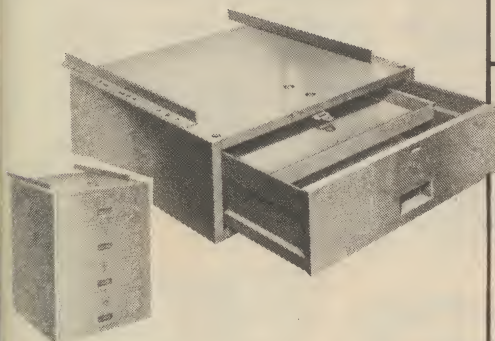

## HEAVY DUTY BENCH LEGS

*Solid heavy channel steel*

Build your own work bench with any top, and make a substantial saving. These legs are also ideal for storage platform supports, or machine mountings. Legs are punched for tops and stringers. Cross member is punched for shelf attachment. Flared feet insure maximum stability. Base plate punched for attachment to floor if desired. All welded construction. Baked-on gray enamel finish.

Model No.	Depth	Height	Price ea.
183510	23 1/4"	28 1/4"	\$ 13.80
183512	33 1/4"	28 1/4"	14.90
183514	28"	32 1/4"	15.30
183516	34"	32 1/4"	16.10

## BENCH DRAWERS

*Low cost—easy to attach*

Ready for permanent attachment to work benches, tool stands and counters. Or bolt them together for free standing storage units. Drawers glide within their own complete case. Pad-lock attachment. Gray finish.

Model No.	Size	Price
183453	14"Wx20"Dx5"H	\$ 32.95
183455	20"Wx20"Dx5"H	36.15
183456	Built-in lock 2 keys	2.45

## PORTABLE WORK BENCH

*Rolls right to job*

A great time saver for mechanics and mobile assembly or production lines. Rigid bench casters are securely attached; wheelbarrow handles slide out of the way. Note handy shelf. Baked gray enamel. Shipped knocked down. May be equipped with No. 183453 or No. 183455 Bench Drawers.

No. 183450 — 72"Lx28"Dx34"H \$151.45

## BENCH RISER

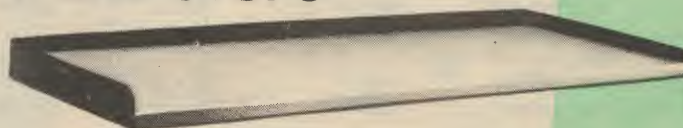

*Additional Storage Space*

Provides handy, easy-to-reach shelf storage without cluttering work surface. Fits all tops. Gray enamel finish.

Where beauty—design—efficiency become an integral part of your every-day office needs. Functional and modern in design and appearance to blend and harmonize with that special decorator touch for office, home, school, hospital and institutional use.

There are no swinging doors to block off valuable aisle space and working area.

### FEATURES

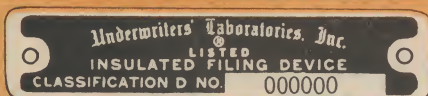

1. Shipped set-up and ready for instant use—all welded construction.
2. Sliding doors glide on smooth, non-binding ball bearing rollers.
3. Doors can be easily removed without any effort for complete accessibility.
4. Intermediate shelves are easily adjustable for your various needs.
5. Gray enamel finish shipped unless desert tan, pastel green or olive green is specified.

## FIREPROOF FILES

### FIRE MASTER Insulated Files

UNDERWRITERS' LABORATORIES, INC.  
"D" LABEL — ONE HOUR

Ability to withstand exposure on all sides to severe fire reaching 1700°F for one hour without damage to paper contents... plus sudden heating up to 2000°F for ½-hour without accumulating explosive gases inside the unit.

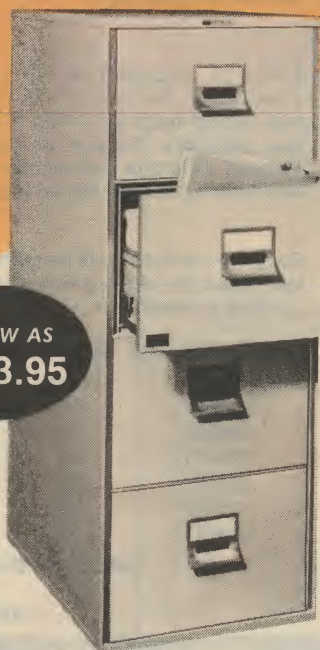

#### "C" LABEL — ONE HOUR WITH IMPACT TEST

Assures protection of paper contents against severe fire exposure reaching 1700°F for at least one hour, and during an additional "sweatout" period without the interior temperatures reaching 350°F.

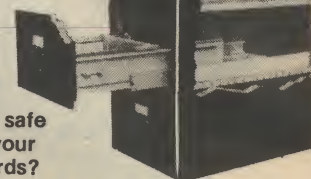

Explosion tests subject the unit to sudden intensive heating to 2000°F for one-half hour without the accumulation of explosive gases.

An additional impact test includes initial heating to 1550°F for one-half hour, followed by a 30 foot clear fall onto brick rubble. The unit is then reheated in an inverted position at 1550°F for another half-hour without damage to the paper contents.

AS LOW AS  
**\$333.95**

Each FIRE-MASTER Insulated File offers top protective performance.

How safe are your records?

- CHECK THESE FEATURES...
- Double steel wall tongue and groove construction with asbestos insulation
- Fully insulated drawers for added protection
- Overlapping drawer fronts assure a tight seal against fire and water entry
- Flexible locking system permits free access to any or all drawers
- Gear controlled ball bearing slides assure easy drawer operation
- Gray Baked-on enamel finish furnished unless Beige or Black is specified

If suitable unloading facilities are not available, the drawers may be removed from the cabinet to lighten the load.

## HORIZONTAL FILES

### SPACE SAVING

Reduces your filing and  
space costs up to 50%

Designed and engineered to meet the demands of the modern office. Maximum filing capacity with ultimate savings of high cost floor space. This new horizontal file accommodates letter and/or legal size. Patented automatic Tilt-Proof mechanism prevents file from tipping. Drawers open fingertip easy—and so quietly—on full suspension tracks for full view filing. Central locking device on top drawer. 3½" legs are standard. Beautiful baked on BLACK enamel finish will be supplied unless gray, sea blue, mist green, sahara tan, or bamboo is specified.

## All Your Equipment Needs

All Sales are net 30 days to firms with acceptable Dun & Bradstreet, Inc. rating. Unrated firms or non listed firms are requested to submit the name of your local bank and two major trade references or include check with your order to assure prompt handling.

**HOW TO ORDER:** Simply dial our TOLL FREE number for fast service 800 - 645-1232 (except New York State - 516-485-1000) or mail your purchase order to address shown on cover.

**PRICES:** All prices shown in this catalog are net industrial prices, FOB Point of Shipment and do not include any Federal, State or local taxes. We reserve the right to invoice at prices

in effect at time of shipment. Billing will reflect any DECREASE or INCREASE from price shown. Pre-Paid freight shipments will be subject to a handling charge.

**LIABILITY:** No liability is assumed by Global Equipment Co. for damage and/or injury resulting from use of equipment supplied by this company.

**DAMAGED SHIPMENTS:** To protect your interest, we suggest that you inspect shipment before accepting receipt of merchandise. Damages should be noted on freight bill and claim filed immediately with carrier.

**RETURN SHIPMENT:** Any merchandise being returned must be sent freight prepaid. RETURN AUTHORIZATION MUST BE GRANTED BY

US IN WRITING BEFORE RETURN OF MERCHANDISE.

**PRODUCT DESIGN:** All orders are accepted subject to design change and our ability to obtain materials.

**MINIMUM ORDER:** Rising costs make it imperative for us to impose a \$15.00 Minimum charge per order unless otherwise stated.

### OUR PRICING POLICY

Global is in complete support of the governmental Price Stabilization Program. We will increase or decrease our prices only when said change falls within guidelines prescribed by the government.

Over 27 years of proven integrity assures you at Global's effort to maintain the lowest possible prices while maintaining our reputation for quality products.
